About Me

What I Do at MSK

- Sir Murray F. Brennan Chair in Surgery

Get To Know Me

I am a urologic surgeon who specializes in surgery for men and women with cancers of the genitourinary system. Examples of the specific tumors that I treat include cancers of the bladder, prostate, kidney, and testis.

This provider is part of a team that was ranked [#1 in the nation for Urology Cancer Care](#) this year by *U.S. News & World Report*.

My main areas of expertise include radical surgical procedures for invasive bladder cancer and reconstructive surgery of the urinary system following radical cystectomy or pelvic exenteration. Removal of the bladder, also called radical cystectomy, serves as the standard for definitive treatment of high-risk bladder tumors and can provide a cure in the majority of patients with early, invasive lesions. Function-sparing procedures (including preservation of the nerves responsible for erectile function and advanced reconstructive techniques that re-create the natural urination pathway after bladder removal) can also be performed to provide an excellent postoperative quality of life.

Find a Clinical Trial for You

Memorial Sloan Kettering's doctors and scientists are constantly developing new treatments for cancer. MSK is typically running hundreds of clinical trials at a given time.

You may be able to participate in a clinical trial even if you are new to MSK. Search our online directory to find trial information and see more about who can participate.

Disclosures

Doctors and faculty members often work with pharmaceutical, device, biotechnology, and life sciences companies, and other organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community.

MSK requires doctors and faculty members to report (“disclose”) the relationships and financial interests they have with external entities. As a commitment to transparency with our community, we make that information available to the public.

Bernard H. Bochner discloses the following relationships and financial interests:

Olympus
Professional Services and Activities

If you’re a patient at MSK and would like more information about your doctor’s external relationships, please talk with your doctor.

The information published here is for a specific annual disclosure period. There may be differences between information on this and other public sites as a result of different reporting periods and/or the various ways relationships and financial interests are categorized by organizations that publish such data.

This page and data include information for a specific MSK annual disclosure period (January 1, 2022 through disclosure submission in spring 2023). This data reflects interests that may or may not still exist. This data is updated annually.

Learn more about MSK’s COI policies [here](#). For questions regarding MSK’s COI-related policies and procedures, email MSK’s Compliance Office at ecoi@mskcc.org.
