Get to Know Me

I am a urologic surgeon who specializes in surgery for men and women with cancers of the genitourinary system. Examples of the specific tumors that I treat include cancers of the bladder, prostate, kidney, and testis.

This provider is part of a team that was ranked [#1 in the nation for Urology Cancer Care](#) this year by *U.S. News & World Report*.

My main areas of expertise include radical surgical procedures for invasive bladder cancer and reconstructive surgery of the urinary system following radical cystectomy or pelvic exenteration. Removal of the bladder, also called radical cystectomy, serves as the standard for definitive treatment of high-risk bladder tumors and can provide a cure in the majority of patients with early, invasive lesions. Function-sparing procedures (including preservation of the nerves responsible for erectile function and advanced reconstructive techniques that re-create the natural urination pathway after bladder removal) can also be performed to provide an excellent postoperative quality of life.

What I Do at MSK

I'm a urologic surgeon, which is a doctor with special training in surgery on the genitourinary (jeh-nih-toh-YOOR-

ih-nayr-ee) (GU) system. This includes the bladder, kidney, penis, prostate, and testicles.

- Sir Murray F. Brennan Chair in Surgery

Areas of Expertise

Conditions I Treat

- Bladder cancer
- Kidney (renal cell) cancer and conditions
- Prostate cancer and conditions

My Specialties

Insurance Information

Understanding your insurance options is an important part of managing your cancer care. We have relationships with many common healthcare providers and plans.

Don't see your carrier or plan? [We can help you understand your coverage](#) .

If you don't have health insurance or are worried that your care may not be fully covered, our [financial assistance](#) programs may be able to help.

If you have questions about insurance, call us at [646-497-9176](tel:646-497-9176) .

Find a Clinical Trial for You

Memorial Sloan Kettering's doctors and scientists are constantly developing new treatments for cancer. MSK is typically running hundreds of clinical trials at a given time.

You may be able to participate in a clinical trial even if you are new to MSK. Search our online directory to find trial information and see more about who can participate.

Disclosures

Members of the MSK Community often work with pharmaceutical, device, biotechnology, and life sciences companies, and other organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community. These activities outside of MSK further our mission, provide productive collaborations, and promote the practical application of scientific discoveries.

MSK requires doctors, faculty members, and leaders to report ("disclose") the relationships and financial interests

they have with external entities. As a commitment to transparency with our community, we make that information available to the public. Not all disclosed interests and relationships present conflicts of interest. MSK reviews all disclosed interests and relationships to assess whether a conflict of interest exists and whether formal COI management is needed.

Bernard H. Bochner discloses the following relationships and financial interests:

- Olympus
Professional Services and Activities

If you're a patient at MSK and would like more information about your doctor's external relationships, please talk with your doctor.

The information published here is a complement to other publicly reported data and is for a specific annual disclosure period. There may be differences between information on this and other public sites as a result of different reporting periods and/or the various ways relationships and financial interests are categorized by organizations that publish such data.

This page and data include information for a specific MSK annual disclosure period (January 1, 2024 through disclosure submission in spring 2025). This data reflects interests that may or may not still exist. This data is updated annually.

Learn more about MSK's COI policies [here](#) . For questions regarding MSK's COI-related policies and procedures, email MSK's Compliance Office at ecoi@mskcc.org .
