Get to Know Me

I am a neuro-oncologist who cares for patients with brain tumors and neurologic complications of cancer. I work with a multidisciplinary team of physicians, nurses, and administrative staff to provide patients and their families with the best possible care.

What I Do at MSK

I'm a neuro-oncologist at MSK. This is a doctor with special training in cancers that affect the brain, spinal cord, peripheral nerves, and muscles. This includes brain tumors and central nervous system tumors.

I'm an early drug development specialist, which is a scientist who tests new drugs to treat cancer. I have special training in research studies, also known as clinical trials.

Disclosures

Members of the MSK Community often work with pharmaceutical, device, biotechnology, and life sciences companies, and other organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community. These activities outside of MSK further our mission, provide productive collaborations, and promote the practical application of scientific discoveries.

MSK requires doctors, faculty members, and leaders to report (“disclose”) the relationships and financial interests they have with external entities. As a commitment to transparency with our community, we make that information available to the public. Not all disclosed interests and relationships present conflicts of interest. MSK reviews all disclosed interests and relationships to assess whether a conflict of interest exists and whether formal COI management is needed.

Christian Grommes discloses the following relationships and financial interests:
