About Me

What I Do at MSK

- Chairman, Experimental Therapeutics Center
- Vincent Astor Chair
- Deputy Director, Therapeutic Discovery, Sloan Kettering Institute

Get To Know Me

Dr. Scheinberg is a physician-scientist who specializes in the care of patients with leukemia and is also investigating new therapeutic approaches to cancer, both in the clinic and in the laboratory. His research is focused on discovering and developing novel, specific immunotherapeutic agents. These include monoclonal antibodies that target the cell surface of cancers, intracellular proteins, engineered cells, targeted radiopharmaceuticals that deliver radioactive particles including alpha particles or alpha particle nanogenerators, targeted nanodevices that selectively kill cancer cells, and therapeutic vaccines that target the oncogene products that cause the cancers.

Disclosures

Doctors and faculty members often work with pharmaceutical, device, biotechnology, and life sciences companies, and other organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community.

MSK requires doctors and faculty members to report (“disclose”) the relationships and financial interests they have with external entities. As a commitment to transparency with our community, we make that information available to the public.

David A. Scheinberg discloses the following relationships and financial interests:
