# About Me

- Director of MSK Monmouth ORs

## Get To Know Me

As a gynecologic oncologist, I am a surgeon who specializes in the care of women with cancers of the [ovary](#), [uterus](#), [cervix](#), or vulva. I provide diagnosis, treatment, and follow-up care for women with gynecologic cancers.

In most cases, surgery plays an important role in the treatment of these diseases. Whenever possible, I use [minimally invasive laparoscopic or robotic techniques](#) using the da Vinci® Surgical System to help patients recover faster and have cosmetic results.

I perform robotic and laparoscopic surgery for uterine cancer. If ovarian cancers are advanced, I perform radical debulking surgeries to remove as much cancer as possible. During these debulking procedures, it is often necessary to also operate on the bladder, intestines, and other upper abdominal organs. In young women, I perform fertility-sparing surgeries when possible.

I see patients at Memorial Sloan Kettering in Manhattan and [MSK Monmouth](#) in New Jersey. I am the Director of Surgery for MSK Monmouth and [MSK Basking Ridge](#).
