## Get to Know Me

As a gynecologic oncologist, I am a surgeon who specializes in the care of women with cancers of the [ovary](#) , [uterus](#) , [cervix](#) , or vulva. I provide diagnosis, treatment, and follow-up care for women with gynecologic cancers.

In most cases, surgery plays an important role in the treatment of these diseases. Whenever possible, I use [minimally invasive laparoscopic or robotic techniques](#) using the da Vinci® Surgical System to help patients recover faster and have cosmetic results.

I perform robotic and laparoscopic surgery for uterine cancer. If ovarian cancers are advanced, I perform radical debulking surgeries to remove as much cancer as possible. During these debulking procedures, it is often necessary to also operate on the bladder, intestines, and other upper abdominal organs. In young women, I perform fertility-sparing surgeries when possible.

I see patients at Memorial Sloan Kettering in Manhattan and [MSK Monmouth](#) in New Jersey. I am the Chief of MSK Monmouth Operating Rooms (ORs).

## Clinical Trials

- Clinical Trials Co-Investigated by Dr. Jewell
- [Study of Isoquercetin in People With Ovarian Cancer](#)

### Find a Clinical Trial for You

Memorial Sloan Kettering's doctors and scientists are constantly developing new treatments for cancer. MSK is typically running hundreds of clinical trials at a given time.

You may be able to participate in a clinical trial even if you are new to MSK. Search our online directory to find trial information and see more about who can participate.

## Disclosures

Members of the MSK Community often work with pharmaceutical, device, biotechnology, and life sciences companies, and other organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community. These activities outside of MSK further our mission, provide productive collaborations, and promote the practical application of scientific discoveries.

MSK requires doctors, faculty members, and leaders to report ("disclose") the relationships and financial interests they have with external entities. As a commitment to transparency with our community, we make that information available to the public. Not all disclosed interests and relationships present conflicts of interest. MSK reviews all disclosed interests and relationships to assess whether a conflict of interest exists and whether formal COI management is needed.

Elizabeth Jewell discloses the following relationships and financial interests:

*No disclosures meeting criteria for time period*

If you're a patient at MSK and would like more information about your doctor's external relationships, please talk with your doctor.

The information published here is a complement to other publicly reported data and is for a specific annual disclosure period. There may be differences between information on this and other public sites as a result of different reporting periods and/or the various ways relationships and financial interests are categorized by organizations that publish such data.

---

This page and data include information for a specific MSK annual disclosure period (January 1, 2024 through disclosure submission in spring 2025). This data reflects interests that may or may not still exist. This data is updated annually.

Learn more about MSK's COI policies [here](#) . For questions regarding MSK's COI-related policies and procedures, email MSK's Compliance Office at [ecoi@mskcc.org](mailto:ecoi@mskcc.org) .
