About Me

Gopa Iyer

1/9

What I Do at MSK

■ Section Head, Bladder Cancer

Get To Know Me

I am a medical oncologist who specializes in research in and treatment of patients with genitourinary cancers, including bladder, prostate, kidney, and testis cancers.

This provider is part of a team that was ranked [#1 in the nation for Urology Cancer Care](#) this year by *U.S. News & World Report*.

I also have a special interest in understanding the genetic basis for bladder cancer and am a member of Memorial Sloan Kettering's Bladder Cancer Oncogenome Project, a multidisciplinary effort to discover the key genetic abnormalities that drive this disease. The discovery and understanding of these genetic abnormalities hold the promise of novel treatments for patients with bladder cancer.

My Role at MSK

A genitourinary (jeh-nih-toh-YOOR-ih-nayr-ee) oncologist is a cancer doctor with special training in the genitourinary (GU) system. This includes bladder, kidney, penis, prostate, and testicular cancers.

An early drug development specialist tests new drugs to treat cancer. They have special training in research studies, known as clinical trials.

Areas of Expertise

My Specialties

Bladder Cancer

Other Genitourinary Malignancies

Education & Honors

Education

MD, Vanderbilt University School of Medicine

Residencies

Fellowships

Medical Oncology - Memorial Sloan Kettering Cancer Center

Find a Clinical Trial for You

Memorial Sloan Kettering's doctors and scientists are constantly developing new treatments for cancer. MSK is typically running hundreds of clinical trials at a given time.

You may be able to participate in a clinical trial even if you are new to MSK. Search our online directory to find trial information and see more about who can participate.

Disclosures

Doctors and faculty members often work with pharmaceutical, device, biotechnology, and life sciences companies, and other organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community.

MSK requires doctors and faculty members to report (“disclose”) the relationships and financial interests they have with external entities. As a commitment to transparency with our community, we make that information available to the public.

Gopa Iyer discloses the following relationships and financial interests:

Basilea Pharmaceutica International Ltd.

Professional Services and Activities

Dava Oncology

Professional Services and Activities

EMD Serono, Inc

The Lynx Group, LLC

Professional Services and Activities

If you're a patient at MSK and would like more information about your doctor's external relationships, please talk with your doctor.

The information published here is for a specific annual disclosure period. There may be differences between information on this and other public sites as a result of different reporting periods and/or the various ways relationships and financial interests are categorized by organizations that publish such data.

This page and data include information for a specific MSK annual disclosure period (January 1, 2022 through disclosure submission in spring 2023). This data reflects interests that may or may not still exist. This data is updated annually.
