## Get to Know Me

I am a board-certified oncologist and hematologist, and work as part of a multidisciplinary team caring for patients with hematologic disorders. I have a special interest and expertise in treating patients with disorders that arise in white blood cells called plasma cells, including multiple myeloma and light chain (AL) amyloidosis.

### What I Do at MSK

I'm a bone marrow transplant specialist, which is a doctor with special training in bone marrow transplants.

A cellular therapy specialist is a doctor with special training in using cell therapies to treat health conditions such as cancer. Therapies can include chimeric antigen receptor (CAR) T cell therapy.

## Disclosures

Members of the MSK Community often work with pharmaceutical, device, biotechnology, and life sciences companies, and other organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community. These activities outside of MSK further our mission, provide productive collaborations, and promote the practical application of scientific discoveries.

MSK requires doctors, faculty members, and leaders to report (“disclose”) the relationships and financial interests they have with external entities. As a commitment to transparency with our community, we make that information available to the public. Not all disclosed interests and relationships present conflicts of interest. MSK reviews all disclosed interests and relationships to assess whether a conflict of interest exists and whether formal COI management is needed.
