Get to Know Me

I am a medical oncologist specializing in the diagnosis, treatment, and management of central nervous system (CNS) tumors, with a focus on low-grade glioma and glioblastoma.

As Chair of the Department of Neurology, I lead a team of experts in neuro-oncology, neurology, clinical neurophysiology, clinical neuropsychology, and rehabilitation medicine. We evaluate and treat people with all types of primary brain tumors (tumors that start in the brain). We also care for patients with brain metastases or leptomeningeal (LEP-toh-meh-NIN-jee-ul) metastases from other cancers, neurologic effects of cancer or its treatment, and a broad range of conditions requiring physical rehabilitation.

Disclosures

Members of the MSK Community often work with pharmaceutical, device, biotechnology, and life sciences companies, and other organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community. These activities outside of MSK further our mission, provide productive collaborations, and promote the practical application of scientific discoveries.

MSK requires doctors, faculty members, and leaders to report ("disclose") the relationships and financial interests they have with external entities. As a commitment to transparency with our community, we make that information available to the public. Not all disclosed interests and relationships present conflicts of interest. MSK reviews all disclosed interests and relationships to assess whether a conflict of interest exists and whether formal COI management is needed.
