Get to Know Me

I serve as Deputy Director of the Sloan Kettering Institute where I oversee the Office of Science Education and Training (OSET). I head a laboratory in the Sloan Kettering Institute's molecular pharmacology program, and I am a professor at the Gerstner Sloan Kettering Graduate School of Biomedical Sciences.

I have published more than 350 papers, books, book chapters, and reviews on cancer imaging. I serve on grant review panels for the National Institutes of Health and the National Cancer Institute. I also serve on a number of editorial boards.

I am researching new ways to use PET imaging to diagnose cancer as well as developing new radioimmunotherapies for treating this disease. My research is supported by the National Institutes of Health, the Department of Education, and philanthropy.

What I Do at MSK

I'm a radiochemist, which is a doctor and scientist who studies radioactive elements.

- Emily Tow Chair in Oncology
- Deputy Director, Sloan Kettering Institute – Office of Science Education and Training (OSET)
- Scientific Director of the Radiochemistry and Molecular Imaging Probe Core Facility

Areas of Expertise

My Specialties

- Radiotracers

Education & Honors

Education

- PhD, Biochemistry, University of Kent (UK)

Awards and Honors

- Fellow, National Academy of Inventors (NAI)

Insurance Information

Understanding your insurance options is an important part of managing your cancer care. We have relationships with many common healthcare providers and plans.

Don't see your carrier or plan? [We can help you understand your coverage](#) .

If you don't have health insurance or are worried that your care may not be fully covered, our [financial assistance](#) programs may be able to help.

If you have questions about insurance, call us at [646-497-9176](tel:646-497-9176) .

Make an Appointment

New Patients

Scheduling an appointment is easy. Click or call [800-525-2225](tel:800-525-2225) — we're available 24 hours a day, 7 days a week

Clinical Trials

Find a Clinical Trial for You

Memorial Sloan Kettering's doctors and scientists are constantly developing new treatments for cancer. MSK is typically running hundreds of clinical trials at a given time.

You may be able to participate in a clinical trial even if you are new to MSK. Search our online directory to find trial information and see more about who can participate.

Disclosures

Members of the MSK Community often work with pharmaceutical, device, biotechnology, and life sciences companies, and other organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community. These activities outside of MSK further our mission, provide productive collaborations, and promote the practical application of scientific discoveries.

MSK requires doctors, faculty members, and leaders to report (“disclose”) the relationships and financial interests they have with external entities. As a commitment to transparency with our community, we make that information available to the public. Not all disclosed interests and relationships present conflicts of interest. MSK reviews all disclosed interests and relationships to assess whether a conflict of interest exists and whether formal COI management is needed.

Jason S. Lewis discloses the following relationships and financial interests:

- Alpha-9 Theranostics Inc.
Equity; Professional Services and Activities
- BicycleTX Limited
