About Me

What I Do at MSK

- Attending Surgeon

Get To Know Me

I am a urologic surgeon with an expertise in voiding dysfunction and pelvic reconstruction. My primary area of interest is incontinence after radical pelvic surgery, such as radical prostatectomy or radical cystectomy, as well as urinary complications associated with radical gastrointestinal or gynecological surgery.

I also treat patients who have received radiation therapy for pelvic malignancies. In addition, I have a strong interest in bladder reconstruction following bladder removal and surgery for benign prostatic hyperplasia.

> This provider is part of a team that was ranked #1 in the nation for Urology Cancer Care this year by *U.S. News & World Report*.

Disclosures

Doctors and faculty members often work with pharmaceutical, device, biotechnology, and life sciences companies, and other organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community.

MSK requires doctors and faculty members to report (“disclose”) the relationships and financial interests they have with external entities. As a commitment to transparency with our community, we make that information available to the public.

Jaspreet S. Sandhu discloses the following relationships and financial interests:

No disclosures meeting criteria for time period

If you’re a patient at MSK and would like more information about your doctor’s external relationships, please talk with your doctor.

The information published here is for a specific annual disclosure period. There may be differences between information on this and other public sites as a result of different reporting periods and/or the various ways relationships and financial interests are categorized by organizations that publish such data.

This page and data include information for a specific MSK annual disclosure period (January 1, 2022 through disclosure submission in spring 2023). This data reflects interests that may or may not still exist. This data is updated annually.
