## Get to Know Me

I am a radiologist with expertise in [breast imaging](#) and oncologic body [computed tomography \(CT\)](#) scans. Imaging procedures support our ability to make timely, accurate diagnoses and select the appropriate treatments for patients, based on the results. At Memorial Sloan Kettering Cancer Center (MSK), I interpret the full range of imaging modalities used in the screening and diagnosis of breast cancer, such as [mammograms](#) (including [digital breast tomosynthesis](#), also known as “3-D mammography”), sonograms, and [magnetic resonance imaging \(MRI\)](#).

As a breast imager, I also perform image-guided interventional procedures. These include [stereotactic biopsy](#), [ultrasound-guided biopsy](#), [MRI-guided biopsy](#), [radioactive seed placement](#), and wire localization. Finally, in addition to my clinical focus on breast imaging, I interpret CT scans and radiographs of the body.

## What I Do at MSK

I'm a radiologist, which is a doctor with special training in using imaging to diagnose and treat disease. Imaging includes X-rays, sonography, ultrasound (US), computed tomography (CT), and magnetic resonance imaging (MRI).

- Chief, Breast Imaging Service
- Head, Breast Imaging Quality Assurance

## Areas of Expertise

### Conditions I Treat

- Breast cancers and conditions

### My Specialties

- Breast imaging
- Mammogram
- 3-D mammogram
- Contrast-enhanced digital mammography (CEDM)
- Breast ultrasound
- Breast MRI
- Image-guided biopsy
- Ultrasound-guided biopsy
- Breast localization
- Radioactive seed localization
- Needle localization
- Stereotactic biopsy
- MRI-guided biopsy

## Education & Honors

## Education

- MD, University of Rochester School of Medicine and Dentistry

## Residencies

- NewYork-Presbyterian/Weill Cornell Medical Center

## Fellowships

- Memorial Sloan Kettering Cancer Center

## Board Certifications

- Diagnostic Radiology

## Awards and Honors

- Castle Connolly: America's Top Doctor (2026)
- Castle Connolly: America's Top Doctor (2025)
- Castle Connolly: Exceptional Women in Medicine (2017-2021, 2023-2024)
- Castle Connolly: America's Top Doctor (2023-2024)
- Top Doctors New York Metro Area, Castle Connolly (2023)
- Distinguished Radiologist Award, New York Roentgen Society (2021)
- Fellow, American College of Radiology (2018)
- Castle Connolly: New York Magazine Top Doctors (2016-2022)
- Faculty Clinical Excellence Award, Department of Radiology (2015)
- Faculty Certificate of Appreciation for Outstanding Teaching, Department of Radiology (2016)

## Insurance Information

Understanding your insurance options is an important part of managing your cancer care. We have relationships with many common healthcare providers and plans.

Don't see your carrier or plan? [We can help you understand your coverage](#) .

If you don't have health insurance or are worried that your care may not be fully covered, our [financial assistance](#) programs may be able to help.

If you have questions about insurance, call us at [646-497-9176](tel:646-497-9176) .

## Make an Appointment

### New Patients

Scheduling an appointment is easy. Click or call [800-525-2225](tel:800-525-2225) — we're available 24 hours a day, 7 days a week

## Clinical Trials

### Find a Clinical Trial for You

Memorial Sloan Kettering's doctors and scientists are constantly developing new treatments for cancer. MSK is typically running hundreds of clinical trials at a given time.

You may be able to participate in a clinical trial even if you are new to MSK. Search our online directory to find trial information and see more about who can participate.

[Search clinical trials \(https://www.mskcc.org/cancer-care/clinical-trials\)](https://www.mskcc.org/cancer-care/clinical-trials)

## Research and Publications

### Publications on PubMed

Visit PubMed for a full listing of Dr. Feigin’s journal articles. Pubmed is an online index of research papers and other articles from the US National Library of Medicine and the National Institutes of Health.

## Disclosures

Members of the MSK Community often work with pharmaceutical, device, biotechnology, and life sciences companies, and other organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community. These activities outside of MSK further our mission, provide productive collaborations, and promote the practical application of scientific discoveries.

MSK requires doctors, faculty members, and leaders to report (“disclose”) the relationships and financial interests they have with external entities. As a commitment to transparency with our community, we make that information available to the public. Not all disclosed interests and relationships present conflicts of interest. MSK reviews all disclosed interests and relationships to assess whether a conflict of interest exists and whether formal COI management is needed.

Kimberly N. Feigin discloses the following relationships and financial interests:

- Covera Health, Inc.

If you're a patient at MSK and would like more information about your doctor's external relationships, please talk with your doctor.

The information published here is a complement to other publicly reported data and is for a specific annual disclosure period. There may be differences between information on this and other public sites as a result of different reporting periods and/or the various ways relationships and financial interests are categorized by organizations that publish such data.

---

This page and data include information for a specific MSK annual disclosure period (January 1, 2024 through disclosure submission in spring 2025). This data reflects interests that may or may not still exist. This data is updated annually.

Learn more about MSK's COI policies [here](#) . For questions regarding MSK's COI-related policies and procedures, email MSK's Compliance Office at [ecoi@mskcc.org](mailto:ecoi@mskcc.org) .
