Get to Know Me

As dermatopathologist I examine skin tissue under the microscope to provide my clinical colleagues with information about the nature of their patients' skin disease. I am part of a multidisciplinary team of physicians dedicated to providing the best care to patients affected by skin cancer. The strength of the team reflects the depth of its expertise. Here at Memorial Sloan Kettering we see more patients with unusual or difficult-to-diagnose skin tumors than do clinicians and dermatopathologists almost anywhere else. Furthermore, we have the most advanced diagnostic methods available. Our research focuses on improving the accuracy of skin tumor diagnosis, in particular distinguishing nevi from melanoma.

What I Do at MSK

I'm a pathologist, which is a doctor who uses a microscope to make a diagnosis from cell and tissue samples. I analyze these samples to learn the cause and effects of a health issue.

- Director, Dermatopathology Service

Areas of Expertise

Conditions I Treat

- Skin cancer and conditions
- Melanoma of the skin

My Specialties

- Dermatopathology

Education & Honors

Education

- MD, University of Freiburg (Germany)

Clinical Trials

Find a Clinical Trial for You

Memorial Sloan Kettering's doctors and scientists are constantly developing new treatments for cancer. MSK is typically running hundreds of clinical trials at a given time.

You may be able to participate in a clinical trial even if you are new to MSK. Search our online directory to find trial information and see more about who can participate.

Disclosures

Members of the MSK Community often work with pharmaceutical, device, biotechnology, and life sciences companies, and other organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community. These activities outside of MSK further our mission, provide productive

collaborations, and promote the practical application of scientific discoveries.

MSK requires doctors, faculty members, and leaders to report (“disclose”) the relationships and financial interests they have with external entities. As a commitment to transparency with our community, we make that information available to the public. Not all disclosed interests and relationships present conflicts of interest. MSK reviews all disclosed interests and relationships to assess whether a conflict of interest exists and whether formal COI management is needed.

Klaus J. Busam discloses the following relationships and financial interests:

- American Society of Dermatopathology
Fiduciary Role / Position

- Elsevier
Intellectual Property Rights

If you’re a patient at MSK and would like more information about your doctor’s external relationships, please talk with your doctor.

The information published here is a complement to other publicly reported data and is for a specific annual disclosure period. There may be differences between information on this and other public sites as a result of different reporting periods and/or the various ways relationships and financial interests are categorized by organizations that publish such data.

This page and data include information for a specific MSK annual disclosure period (January 1, 2024 through disclosure submission in spring 2025). This data reflects interests that may or may not still exist. This data is updated annually.

Learn more about MSK’s COI policies [here](#) . For questions regarding MSK’s COI-related policies and procedures, email MSK’s Compliance Office at ecoi@mskcc.org .
