About Me

What I Do at MSK

- Co-Director, MSK Mesothelioma Program

Get To Know Me

I am a board-certified medical oncologist who specializes in caring for people with thoracic cancers and I am Co-Director of MSK's Mesothelioma Program. I provide personalized care to my patients throughout their treatment. Care plans are based not only on the type of cancer and its genomics but also on the priorities of each and every patient and family.

I work closely with my colleagues from other disciplines such as thoracic surgery, radiation oncology, pulmonology, pathology, radiology, and interventional radiology to determine the optimal plan and whether there is an appropriate clinical trial.

My Role at MSK

A thoracic oncologist is a cancer doctor with special training in thoracic (thor-A-sik) cancers. These are cancers that have to do with the chest, including lung, tracheal (windpipe), and thymic (thymus) cancers.

An early drug development specialist tests new drugs to treat cancer. They have special training in research studies, known as clinical trials.

Areas of Expertise

My Specialties

Lung Cancer

Mesothelioma

Multiple Primary Lung Cancers

Education & Honors

Education

MD, Columbia University

Residencies

Internal Medicine - New York Presbyterian/Columbia University Medical Center

Clinical Trials

Clinical Trials Investigated by Dr. Zauderer

A Phase 1 Study of VT3989 in People With Mesothelioma

Clinical Trials Co-Investigated by Dr. Zauderer

A Phase 1 Study of TNG908 in People with Sarcoma, Mesothelioma, or Glioblastoma

A Phase I Study of Pembrolizumab Immunotherapy and Radiation Therapy in People with Inoperable Pleural Mesothelioma

Find a Clinical Trial for You

Memorial Sloan Kettering's doctors and scientists are constantly developing new treatments for cancer. MSK is typically running hundreds of clinical trials at a given time.

You may be able to participate in a clinical trial even if you are new to MSK. Search our online directory to find trial information and see more about who can participate.

Disclosures

Doctors and faculty members often work with pharmaceutical, device, biotechnology, and life sciences companies, and other organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community.

MSK requires doctors and faculty members to report ("disclose") the relationships and financial interests they have with external entities. As a commitment to transparency with our community, we make that information available to the public.

Marjorie G. Zauderer discloses the following relationships and financial interests:

Curis

Professional Services and Activities

Medscape

Professional Services and Activities

Mesothelioma Applied Research Foundation

Fiduciary Role / Position

If you're a patient at MSK and would like more information about your doctor's external relationships, please talk with your doctor.

The information published here is for a specific annual disclosure period. There may be differences between information on this and other public sites as a result of different reporting periods and/or the various ways relationships and financial interests are categorized by organizations that publish such data.

This page and data include information for a specific MSK annual disclosure period (January 1, 2022 through disclosure submission in spring 2023). This data reflects interests that may or may not still exist. This data is updated annually.

Learn more about MSK's COI policies here. For questions regarding MSK's COI-related policies and procedures, email MSK's Compliance Office at ecoi@mskcc.org.
