# About Me

## What I Do at MSK

- Associate Attending Physician

## Get To Know Me

My expertise as a physician is in the use of radiopharmaceuticals for the diagnosis, evaluation, and treatment of disease. I serve patients through clinical work and research. My clinical role is the providing of state-of-the-art care in nuclear medicine, including positron emission tomography, radioiodide therapy, and radioimmunotherapy. In research, targeted imaging for targeted therapy is my general subject of study; imaging the pharmacokinetics and biomolecular pharmacodynamics of targeted anti-tumor agents promises to revolutionize patient selection, dose selection, and tumor monitoring, serving as tools to tailor cancer care to the individual.

The Society of Nuclear Medicine gave me the 2006 Alavi-Mandell Award for my published research on positron emission tomography and cardiovascular disease.

## My Role at MSK

A nuclear medicine physician is a doctor with special training in using radioactive drugs to diagnose and treat disease.

## Disclosures

Doctors and faculty members often work with pharmaceutical, device, biotechnology, and life sciences companies, and other organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community.

MSK requires doctors and faculty members to report ("disclose") the relationships and financial interests they have with external entities. As a commitment to transparency with our community, we make that information available to the public.

Mark Dunphy discloses the following relationships and financial interests:

Samus Therapeutics LLC  
Intellectual Property Rights

If you're a patient at MSK and would like more information about your doctor's external relationships, please talk with your doctor.

The information published here is for a specific annual disclosure period. There may be differences between information on this and other public sites as a result of different reporting periods and/or the various ways relationships and financial interests are categorized by organizations that publish such data.

This page and data include information for a specific MSK annual disclosure period (January 1, 2022 through disclosure submission in spring 2023). This data reflects interests that may or may not still exist. This data is updated annually.
