Get to Know Me

I am Co-Director of the [Marie-Josée and Henry R. Kravis Center for Molecular Oncology](#) and Chief of the Clinical Computational Diagnostics Service in the Department of Pathology and Laboratory Medicine. I have expertise in cancer genetics, computational biology, and high-throughput DNA sequencing technology. My research is focused on developing and applying methods to characterize the genetic makeup of individual cancers. Knowledge of patient-specific genetic mutations can be used to predict outcomes and inform treatment options, ultimately enabling more personalized cancer medicine.

[What I Do at MSK](#)

I'm a molecular geneticist at MSK. A molecular geneticist has special training in studying genes to research and diagnose diseases and disorders.

- Chief, Clinical Computational Diagnostics Service, Department of Pathology and Laboratory Medicine
- Co-Director, Marie-Josée & Henry R. Kravis Center for Molecular Oncology
- Elizabeth and Felix Rohatyn Chair for Junior Faculty

Areas of Expertise

My Specialties

- Cancer genomics
- Computational biology

Education & Honors

Education

- PhD, Harvard University

Fellowships

- The Broad Institute of MIT and Harvard

Insurance Information

Understanding your insurance options is an important part of managing your cancer care. We have relationships with many common healthcare providers and plans.

Don't see your carrier or plan? [We can help you understand your coverage](#) .

If you don't have health insurance or are worried that your care may not be fully covered, our [financial assistance](#) programs may be able to help.

If you have questions about insurance, call us at [646-497-9176](#) .

Clinical Trials

Find a Clinical Trial for You

Memorial Sloan Kettering's doctors and scientists are constantly developing new treatments for cancer. MSK is typically running hundreds of clinical trials at a given time.

You may be able to participate in a clinical trial even if you are new to MSK. Search our online directory to find trial information and see more about who can participate.

Disclosures

Members of the MSK Community often work with pharmaceutical, device, biotechnology, and life sciences companies, and other organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community. These activities outside of MSK further our mission, provide productive collaborations, and promote the practical application of scientific discoveries.

MSK requires doctors, faculty members, and leaders to report (“disclose”) the relationships and financial interests they have with external entities. As a commitment to transparency with our community, we make that information available to the public. Not all disclosed interests and relationships present conflicts of interest. MSK reviews all disclosed interests and relationships to assess whether a conflict of interest exists and whether formal COI management is needed.

Michael F. Berger discloses the following relationships and financial interests:

- AstraZeneca
Professional Services and Activities
- JCO Precision Oncology
Professional Services and Activities (Uncompensated)
- Journal of Molecular Diagnostics
Professional Services and Activities (Uncompensated)

- Paige.AI, Inc.
Professional Services and Activities
- SOPHiA GENETICS S.A.
Intellectual Property Rights; Professional Services and Activities (Uncompensated)

If you're a patient at MSK and would like more information about your doctor's external relationships, please talk with your doctor.

The information published here is a complement to other publicly reported data and is for a specific annual disclosure period. There may be differences between information on this and other public sites as a result of different reporting periods and/or the various ways relationships and financial interests are categorized by organizations that publish such data.

This page and data include information for a specific MSK annual disclosure period (January 1, 2024 through disclosure submission in spring 2025). This data reflects interests that may or may not still exist. This data is updated annually.
