Get to Know Me

Dr. Patel is a surgeon who has particular expertise in the multidisciplinary treatment of tumors located in the head and neck area. He is especially interested in minimally invasive endoscopic laser treatment for tumors of the voice box and pharynx, with the goal of preserving the ability to speak and swallow.

At Memorial Sloan Kettering Cancer Center, he is an integral member of a team of professionals that strives to provide patients with top-quality cancer care, while also placing an emphasis on maintaining or enhancing quality of life. He recognizes that while curing cancer is the ultimate goal, issues such as the ability to speak and swallow and appearance after therapy are equally important to his patients' well-being. He collaborates closely with his colleagues in radiation and medical oncology, plastic surgery, dentistry and prosthetics, neurosurgery, thoracic surgery, endocrinology,

nursing, and speech and swallowing rehabilitation to help his patients achieve this goal.

Clinical Trials

Find a Clinical Trial for You

Memorial Sloan Kettering's doctors and scientists are constantly developing new treatments for cancer. MSK is typically running hundreds of clinical trials at a given time.

You may be able to participate in a clinical trial even if you are new to MSK. Search our online directory to find trial information and see more about who can participate.

Disclosures

Members of the MSK Community often work with pharmaceutical, device, biotechnology, and life sciences companies, and other organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community. These activities outside of MSK further our mission, provide productive collaborations, and promote the practical application of scientific discoveries.

MSK requires doctors, faculty members, and leaders to report (“disclose”) the relationships and

financial interests they have with external entities. As a commitment to transparency with our community, we make that information available to the public. Not all disclosed interests and relationships present conflicts of interest. MSK reviews all disclosed interests and relationships to assess whether a conflict of interest exists and whether formal COI management is needed.

Snehal G. Patel discloses the following relationships and financial interests:

No disclosures meeting criteria for time period

If you're a patient at MSK and would like more information about your doctor's external relationships, please talk with your doctor.

The information published here is a complement to other publicly reported data and is for a specific annual disclosure period. There may be differences between information on this and other public sites as a result of different reporting periods and/or the various ways relationships and financial interests are categorized by organizations that publish such data.

This page and data include information for a specific MSK annual disclosure period (January 1, 2024 through disclosure submission in spring 2025). This data reflects interests that may or may not still exist. This data is updated annually.

Learn more about MSK's COI policies [here](#) . For questions regarding MSK's COI-related policies and procedures, email MSK's Compliance Office at ecoi@mskcc.org .
