About Me

What I Do at MSK

- Attending Surgeon

Get To Know Me

I am an experienced surgeon dedicated to caring for people with breast cancer. I perform about 330 operations each year, including surgeries to treat breast cancer and benign breast diseases. My goal is to achieve the best possible cancer outcomes and cosmetic results for my patients, including reducing the risk of complications and relapse after surgery.

I perform all types of breast surgery, such as breast conservation (lumpectomy), mastectomy, and prophylactic surgery to reduce the risk of breast cancer, as well as procedures to manage cancer that has spread to axillary lymph nodes. I am especially skilled in nipple-sparing mastectomy for people with breast cancer and prophylactic surgery for people at high risk for the disease, such as those who carry certain genetic mutations.

Clinical Trials

Find a Clinical Trial for You

Memorial Sloan Kettering's doctors and scientists are constantly developing new treatments for cancer. MSK is typically running hundreds of clinical trials at a given time.

You may be able to participate in a clinical trial even if you are new to MSK. Search our online directory to find trial information and see more about who can participate.

Disclosures

Doctors and faculty members often work with pharmaceutical, device, biotechnology, and life sciences companies, and other organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community.

MSK requires doctors and faculty members to report ("disclose") the relationships and financial interests they have with

external entities. As a commitment to transparency with our community, we make that information available to the public.

Virgilio Sacchini discloses the following relationships and financial interests:
