# About Me

## What I Do at MSK

- Chief, Hepatobiliary Service
- Leslie Blumgart Chair in Surgery

## Get To Know Me

As Chief of Memorial Sloan Kettering's Hepatopancreatobiliary Service, I oversee a team of seven board-certified surgeons that performs approximately 1,000 operations a year for HPB-related disease; of that number, roughly 350 are pancreas and related resections, 350-400 are liver resections, and the remainder are mix of palliative, non-therapeutic, diagnostic procedures.

We work intimately with the broader healthcare group — meeting weekly to discuss each patient's care. In these and other ways, we design the very best treatment plan possible, customized to each individual's needs.

## Disclosures

Doctors and faculty members often work with pharmaceutical, device, biotechnology, and life sciences companies, and other organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community.

MSK requires doctors and faculty members to report ("disclose") the relationships and financial interests they have with external entities. As a commitment to transparency with our community, we make that information available to the public.

William R. Jarnagin discloses the following relationships and financial interests:
