FOR THE MEDIA

diagnostic tests and interpretation of test results.

The Clinical Microbiology Service engages in numerous clinical and translational research projects including development and evaluation of molecular diagnostic assays, epidemiology studies, and patient outcome studies, in collaboration with MSK's Infectious Diseases and Allergy Service.

## Fellowship

The Department of Laboratory Medicine offers a fellowship accredited by the American Academy of Microbiology Committee on Postdoctoral Educational Programs. Fellows in this program receive training in diagnosis of microbial infections, with special emphasis on immunocompromised patients.
