[Annual report](#)

[Give to MSK](#)

STROGOS, MSK, Cornell Medical College of Cornell University, Hospital for Special Surgery, and The Rockefeller University allow our trainees to participate in a world-class medical and scientific community.

More information for individual programs can be found by clicking the program links. Find information about working as a trainee at MSK on the [Life as a Trainee page](#) . To return to the GME page, please click [here](#) .

Full-time Residency Programs

[Interventional Radiology \(IR\) Residency - Independent](#)

This is a standard ACGME-accredited track.

[Medical Genetics Residency](#)

The New York-Presbyterian Hospital and Memorial Sloan Kettering Cancer Center jointly offer an

ACGME-accredited two-year training program in Medical Genetics.

[Medical Imaging Physics Residency](#)

The Medical Imaging Physics Residency is a Hybrid 2+2 program in which a two-year grant-funded research project is followed by a two-year clinical residency in medical imaging physics. Individuals who wish to enter this program must have a PhD in medical physics, physics, or a closely allied field.

[Nuclear Medicine Residency](#)

This three-year program consists of rotations in various clinical subspecialties of nuclear medicine, including general nuclear medicine, nuclear cardiology, PET/CT imaging, and therapy, and has time allotted for research.

[Radiation Oncology Residency](#)

This four-year radiation oncology residency trains residents in modern radiotherapy techniques and includes a dedicated year of protected research time.

[Therapeutic Medical Physics Residency](#)

The Medical Therapy Physics Residency has two options. The first option is a 4-year hybrid program in which a two-year grant-funded research project training is followed by a two-year clinical residency training in Medical Therapy physics. The second options is a 2-year clinical residency training only residency. This option is only available when announced.

[Thoracic Surgery Residency Program](#)

Memorial Sloan Kettering Cancer Center offers a two-year, thoracic-track, ACGME-accredited Thoracic Surgery Residency Program for surgeons who have completed a general surgery residency program.

[Transitional Year Residency Program](#)

This one-year residency provides a well-balanced graduate medical education in multiple clinical disciplines. Electives can be selected from many specialties and subspecialties within many areas.

Rotating Residency Programs

[Breast Surgery Resident Scholars Rotation \(Elective\)](#)

The Breast Service in the Department of Surgery at Memorial Sloan Kettering Cancer Center has an intense training program in breast surgical oncology for surgery residents currently enrolled in approved training programs.

[Dermatology Residency Rotation \(Elective\)](#)

This is a shared residency with the Department of Dermatology of the Sanford Weill College of Medicine of Cornell University.

[General Surgery Residency Rotation \(Elective\)](#)

The Department of Surgery offers a one- to three-month elective for general surgery residents interested in surgical oncology.

[Gynecological Brunschwig Rotating Residency \(Elective\)](#)

The Brunschwig Rotating Resident Program provides a one-month clinical and academic experience in gynecologic oncology for obstetrics and gynecology residents.

[Pediatric Elective Rotations \(Elective\)](#)

This primarily outpatient elective offers an opportunity for residents to gain experience in the evaluation and management of children with primary pediatric central nervous system tumors.

[Urology Rotation/Willet F. Whitmore Memorial Scholars Program for Residents \(Elective\)](#)

This program provides intense training in urologic oncology for urology residents.
