[Annual report](#)

[Give to MSK](#)

In keeping with its commitment to education and patient care, Memorial Sloan Kettering Cancer Center offers a 21.5 months, full-time program of study in Radiation Oncology Technology.

Memorial Sloan Kettering's School of Radiation Therapy has produced hundreds of radiation therapists over the past five decades. Here you can learn about our program and admission requirements and find answers to frequently asked questions.

## Application

Our application cycle for Fall 2026 start date is now closed. Our next cycle will begin in October 2026. We encourage you to visit our Open House page to find more information regarding our upcoming virtual Open House, where we will provide more information regarding application dates and process.

[Please read the admission requirements section](#) to review the pre-requisites.

- [School of Radiation Therapy: Mission, Goals, and Student Outcomes](#)  
Information on our program goals, curriculum, tuition, accreditation, outcomes, and more.
- [Open House](#)  
Learn about what a radiation therapist does on a day-to-day basis, the admission process for entering our program, and the curriculum. You must register for this event.
- [School of Radiation Therapy Admission Requirements](#)  
Information about admission requirements, application procedure, and information about our entrance examination.
- [School of Radiation Therapy Course Descriptions](#)  
A complete listing of our courses, with descriptions, and graduation requirements.
- [Application](#)
- [Program Effectiveness Data \(PED\)](#)  
Program effectiveness data is provided in accordance with the Joint Review Committee on Education in Radiologic Technology Accreditation Standards. Program effectiveness data includes program completion rate, American Registry of Radiologic Technologists (ARRT) board exam pass rate and job placement rate. This information is reported annually and may also be found on the JRCERT website. See Program Effectiveness Data for the Radiation Therapy Program at MSK.
- [School of Radiation Therapy FAQs](#)  
Answers to our most commonly asked questions.
- [Contact the School of Radiation Therapy](#)  
How to reach us by phone, email, and regular mail.
- [Accreditation Status](#)  
The Memorial Sloan Kettering School of Radiation Therapy is accredited by the Joint Review Committee on Education in Radiologic Technology and by the New York State Department of Health and The New Jersey Radiologic Technology Board of Examiners c/o NJDEP Bureau of X-ray Compliance.
- [Campus Safety](#)
- [Clinical Obligations](#)  
The students are assigned to monthly clinical rotations in Manhattan and may also elect to do some clinical rotations at our regional sites.
