## Research

Danwei Huangfu, PhD

---

We apply both precision gene editing and large-scale CRISPR screening in human pluripotent stem cells (hPSCs) to explore mechanisms underlying human development. Specifically, we are interrogating the protein-coding regulators of pancreatic development and  $\beta$  cell function. The pathways that regulate these processes can be exploited for therapeutics to prevent and reverse diseases such as type 1 and type 2 diabetes. In a second, closely related area, we are developing approaches to discover developmental enhancers, and to understand the epigenetic regulation of noncoding regulatory elements with a focus on DNA methylation.

## Publications Highlights

[Glucose transporters are key components of the human glucostat.](#) Caspi I, Tremmel DM, Pulecio J, Yang D, Liu D, Yan J, Odorico JS, Huangfu D. *Diabetes*. 2024 May 22:db230508. (*first author(s) from the Huangfu lab are shown in bold*)

[Dynamic network-guided CRISPRi screen identifies CTCF-loop-constrained nonlinear enhancer gene regulatory activity during cell state transitions.](#) Luo R, Yan J, Oh JW, Xi W, Shigaki D, Wong W, Cho HS, Murphy D, Cutler R, Rosen BP, Pulecio J, Yang D, Glenn RA, Chen T, Li QV, Vierbuchen T, Sidoli S, Apostolou E, Huangfu D#, Beer MA#. *Nature Genetics*. 2023 Aug;55(8):1336-1346. (#co-corresponding author)

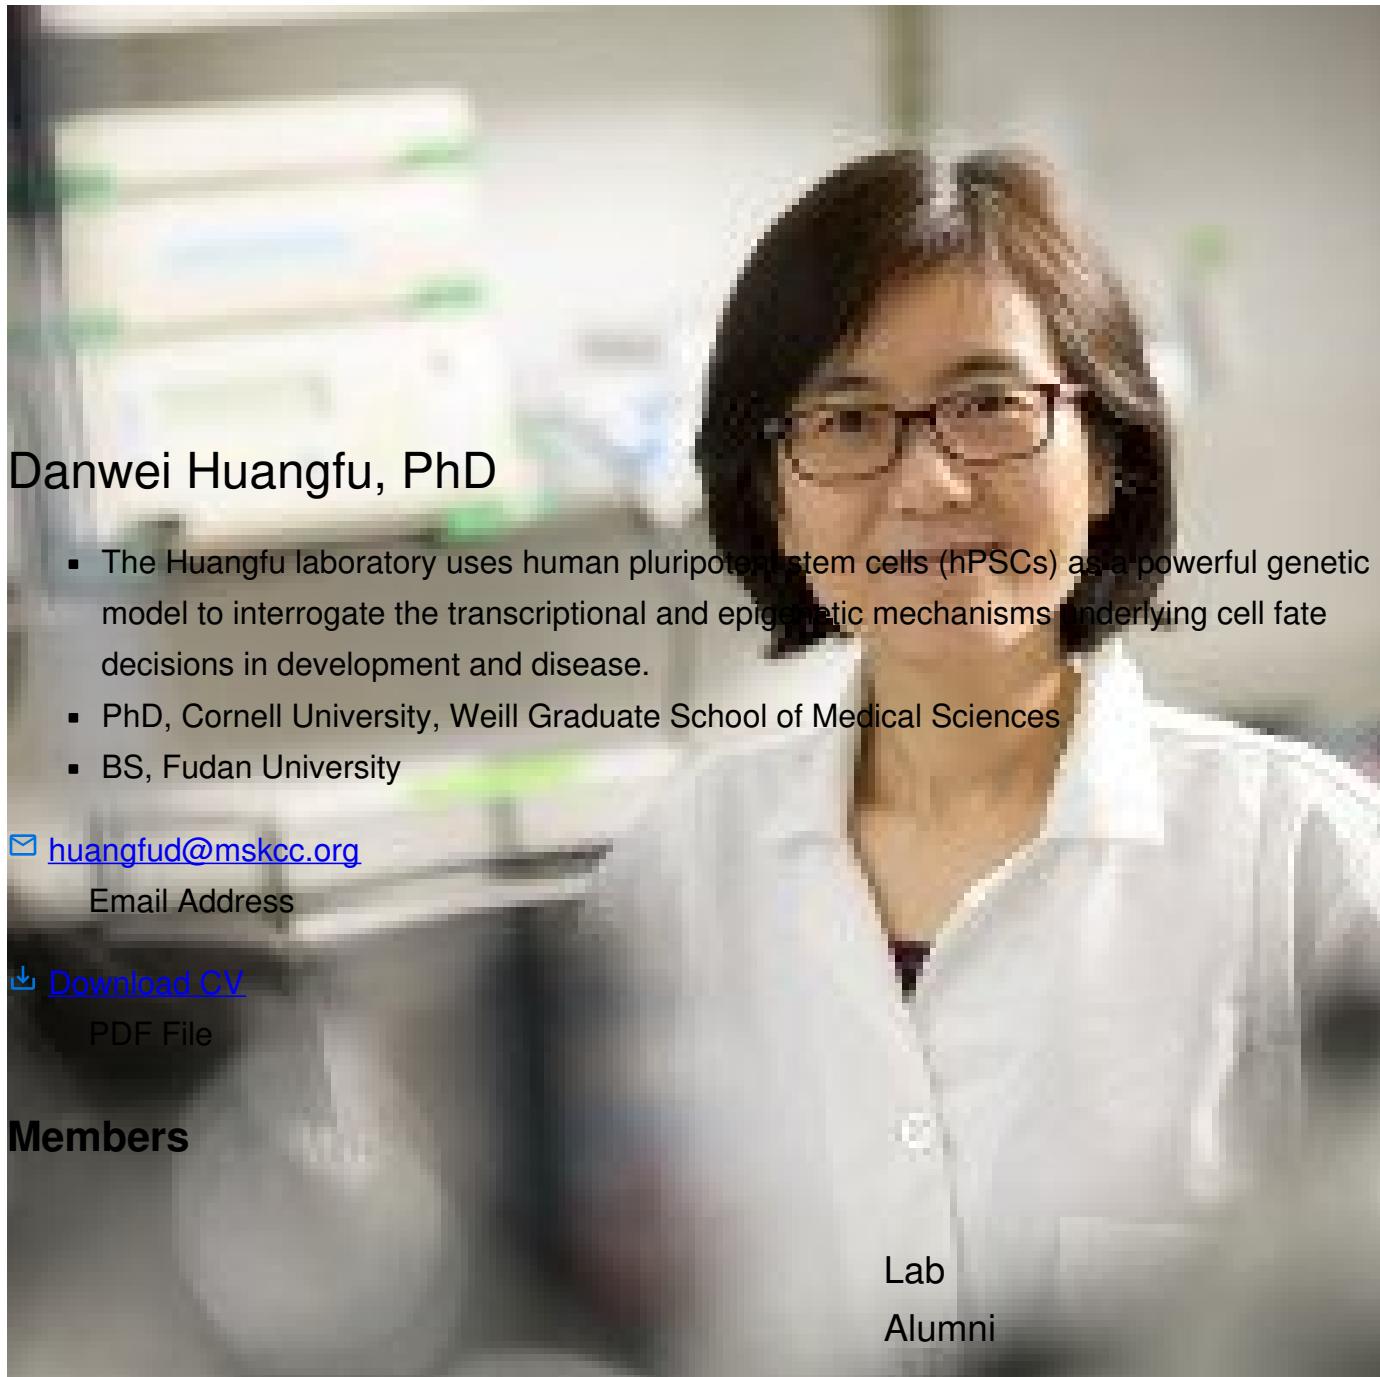

[CRISPR screening uncovers a central requirement for HHX in pancreatic lineage commitment and plasticity restriction.](#) Yang D, Cho H, Tayyebi Z, Shukla A, Luo R, Dixon G, Ursu V, Stransky S, Tremmel DM, Sackett SD, Koche R, Kaplan SJ, Li QV, Park J, Zhu Z, Rosen BP, Pulecio J, Shi ZD, Bram Y, Schwartz RE, Odorico JS, Sidoli S, Wright CV, Leslie CS#, Huangfu D#. *Nature Cell Biology*. 2022 Jul;24(7):1064-1076.

[QSER1 protects DNA methylation valleys from de novo methylation.](#) Dixon G, Pan H, Yang D, Rosen BP, Jashari T, Verma N, Pulecio J, Caspi I, Lee K, Stransky S, Glezer A, Liu C, Rivas M, Kumar R, Lan Y, Torregroza I, He C, Sidoli S, Evans T, Elemento O#, Huangfu D#. *Science*. 2021 Apr 9;372(6538):eabd0875.

[Genome-scale screens identify JNK-JUN signaling as a barrier for pluripotency exit and endoderm differentiation.](#) Li QV, Dixon G, Verma N, Rosen BP, Gordillo M, Luo R, Xu C, Wang Q, Soh CL, Yang D, Crespo M, Shukla A, Xiang Q, Dündar F, Zumbo P, Witkin M, Koche R, Betel D, Chen S, Massagué J, Garippa R, Evans T, Beer MA#, Huangfu D#. *Nature Genetics*. 2019 Jun;51(6):999-1010.

## Disclosures

Members of the MSK Community often work with pharmaceutical, device, biotechnology, and life sciences companies, and other organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community. These activities outside of MSK further our mission, provide productive collaborations, and promote the practical application of scientific discoveries.

MSK requires doctors, faculty members, and leaders to report (“disclose”) the relationships and

financial interests they have with external entities. As a commitment to transparency with our community, we make that information available to the public. Not all disclosed interests and relationships present conflicts of interest. MSK reviews all disclosed interests and relationships to assess whether a conflict of interest exists and whether formal COI management is needed.

Danwei Huangfu discloses the following relationships and financial interests:

- Breakthrough T1D  
Professional Services and Activities
- Stem Cell Reports  
Professional Services and Activities (Uncompensated)

The information published here is a complement to other publicly reported data and is for a specific annual disclosure period. There may be differences between information on this and other public sites as a result of different reporting periods and/or the various ways relationships and financial interests are categorized by organizations that publish such data.

---

This page and data include information for a specific MSK annual disclosure period (January 1, 2024 through disclosure submission in spring 2025). This data reflects interests that may or may not still exist. This data is updated annually.

Learn more about MSK's COI policies [here](#) . For questions regarding MSK's COI-related policies and procedures, email MSK's Compliance Office at [ecoi@mskcc.org](mailto:ecoi@mskcc.org) .
