## ABOUT US

[Our mission, vision & core values](#)

[Leadership](#)

[History](#)

[Equality, diversity & inclusion](#)

[Annual report](#)

[Give to MSK](#)

neuroblastoma, ganglioneuroblastoma, ganglioneuroma, and paraganglioma. These research studies will include analysis of substances called markers that exist on the surface of cancer cells; cytogenetic studies; the identification of genes related to the development of these cancers and to tumor growth; and studies of tumor growth in test tubes. Patients' blood and bone marrow will also be tested for the presence of tumor cells or leukemia cells.

## Who Can Join

To be eligible for this study, patients must have a confirmed diagnosis of a neuroblastic tumor, or a suspected diagnosis of a neuroblastic tumor prior to surgery that may confirm the diagnosis.

For more information and to inquire about eligibility for this study, please contact [Dr. Nai-Kong V. Cheung](#) at [212-639-8401](tel:212-639-8401).
