About Me

What I Do at MSK

- Attending Physician

Get To Know Me

I am a neurologist with an interest in the neurological complications of cancer and its treatment. The needs of patients with brain and spinal cord tumors can be very complex, particularly in the advanced stages of their illnesses, and I am working with other neurologists as well as specialists in other fields to ensure that these patients receive the best possible care.

My Role at MSK

A neurologist is a doctor with special training in the brain, spinal cord, nerves, and muscles.

Disclosures

Doctors and faculty members often work with pharmaceutical, device, biotechnology, and life sciences companies, and other organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community.

MSK requires doctors and faculty members to report ("disclose") the relationships and financial interests they have with

external entities. As a commitment to transparency with our community, we make that information available to the public.

Alan Carver discloses the following relationships and financial interests:

No disclosures meeting criteria for time period

If you're a patient at MSK and would like more information about your doctor's external relationships, please talk with your doctor.

The information published here is for a specific annual disclosure period. There may be differences between information on this and other public sites as a result of different reporting periods and/or the various ways relationships and financial interests are categorized by organizations that publish such data.

This page and data include information for a specific MSK annual disclosure period (January 1, 2022 through disclosure submission in spring 2023). This data reflects interests that may or may not still exist. This data is updated annually.
