About Me

What I Do at MSK

- Chief, Early Drug Development Service

Get To Know Me

I am a medical oncologist who specializes in the treatment of lung cancer. I work with a team of experts including surgeons, radiation oncologists, pathologists, and nurses. Our goal is to provide the best possible care and support for patients and their families.

+

My Role at MSK

A thoracic oncologist is a cancer doctor with special training in thoracic (thor-A-sik) cancers. These are cancers that have to do with the chest, including lung, tracheal (windpipe), and thymic (thymus) cancers.

An early drug development specialist tests new drugs to treat cancer. They have special training in research studies, known as clinical trials.

Areas of Expertise

My Specialties

Lung Cancer

Early-Phase Clinical Trials

Education & Honors

Education

MD, University of the Philippines

Residencies

Internal Medicine - St. Luke's-Roosevelt Hospital Center

Find a Clinical Trial for You

Memorial Sloan Kettering's doctors and scientists are constantly developing new treatments for cancer. MSK is typically running hundreds of clinical trials at a given time.

You may be able to participate in a clinical trial even if you are new to MSK. Search our online directory to find trial information and see more about who can participate.

Disclosures

Doctors and faculty members often work with pharmaceutical, device, biotechnology, and life sciences companies, and other

organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community.

MSK requires doctors and faculty members to report (“disclose”) the relationships and financial interests they have with external entities. As a commitment to transparency with our community, we make that information available to the public.

Alexander Drilon discloses the following relationships and financial interests:
