About Me

What I Do at MSK

- Chief, Dermatology Service
- Associate Vice Chair, Promotions Advisory Committee, Department of Medicine

Get To Know Me

I am a board-certified internist and dermatologist with special expertise in skin cancer — especially melanoma. Much of my clinical career has focused on the early detection and management of melanoma in high-risk individuals.

To improve the early detection of melanoma, I have pioneered the use of whole-body photography to assist in the detection of changing moles in patients with dysplastic nevi (large, irregular colored or shaped moles). We have established a fully computerized digital imaging system at Memorial Sloan Kettering Cancer Center to monitor moles in patients who have dysplastic nevi or a personal history of melanoma.

My Role at MSK

A dermatologist is a doctor with special training in skin, hair, and nails.

An internist is a doctor with special training in many conditions that affect organs, including the heart, kidney, liver, and lungs.

Insurance Information

Understanding your insurance options is an important part of managing your cancer care. We have relationships with many common healthcare providers and plans.

Don't see your carrier or plan? [We can help you understand your coverage.](#)

If you don't have health insurance or are worried that your care may not be fully covered, our [financial assistance](#) programs may be able to help.

If you have questions about insurance, call us at [646-497-9176](tel:646-497-9176).

Make an Appointment

New Patients

Scheduling an appointment is easy. Click or call [646-608-4015](tel:646-608-4015)— we're available Monday through Friday, 8 a.m. to 6 p.m. (Eastern time)

Clinical Trials

Find a Clinical Trial for You

Memorial Sloan Kettering's doctors and scientists are constantly developing new treatments for cancer. MSK is typically running hundreds of clinical trials at a given time.

You may be able to participate in a clinical trial even if you are new to MSK. Search our online directory to find trial information and see more about who can participate.

Disclosures

Doctors and faculty members often work with pharmaceutical, device, biotechnology, and life sciences companies, and other organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community.

MSK requires doctors and faculty members to report ("disclose") the relationships and financial interests they have with external entities. As a commitment to transparency with our community, we make that information available to the public.

Allan C. Halpern discloses the following relationships and financial interests:

Canfield Scientific

Professional Services and Activities

Janssen Research & Development, LLC

Professional Services and Activities

Lloyd Charitable Trust

Professional Services and Activities

SKIP Derm, LLC

Equity; Intellectual Property Rights

SciBase

Professional Services and Activities

SpotDoc

Equity

VisualDx

Professional Services and Activities

If you're a patient at MSK and would like more information about your doctor's external relationships, please talk with your doctor.

The information published here is for a specific annual disclosure period. There may be differences between information on this and other public sites as a result of different reporting periods and/or the various ways relationships and financial interests are categorized by organizations that publish such data.

This page and data include information for a specific MSK annual disclosure period (January 1, 2022 through disclosure submission in spring 2023). This data reflects interests that may or may not still exist. This data is updated annually.

Learn more about MSK's COI policies [here](#). For questions regarding MSK's COI-related policies and procedures, email MSK's Compliance Office at ecoi@mskcc.org.
