Get to Know Me

I am a board-certified internist and dermatologist with special expertise in skin cancer — especially melanoma. Much of my clinical career has focused on the early detection and management of melanoma in high-risk individuals.

To improve the early detection of melanoma, I have pioneered the use of whole-body photography to assist in the detection of changing moles in patients with dysplastic nevi (large, irregular colored or shaped moles). We have established a fully computerized digital imaging system at Memorial Sloan Kettering Cancer Center to monitor moles in patients who have dysplastic nevi or a personal history of melanoma.

Clinical Trials

Find a Clinical Trial for You

Memorial Sloan Kettering's doctors and scientists are constantly developing new treatments for cancer. MSK is typically running hundreds of clinical trials at a given time.

You may be able to participate in a clinical trial even if you are new to MSK. Search our online directory to find trial information and see more about who can participate.

Research and Publications

Publications on PubMed

Visit PubMed for a full listing of Dr. Halpern's journal articles. Pubmed is an online index of research papers and other articles from the US National Library of Medicine and the National Institutes of Health.

[See all on PubMed \(<http://www.ncbi.nlm.nih.gov/entrez/query.fcgi?cmd=search&db=pubmed&term=%28%28%22skin%20neoplasms%22%5BMH%5D%20OR%20%22dermatology%22%5BMH%5D%29%20OR%20sloan-kettering%20AND%20Halpern%20A%5BAU%5D%29>\)](http://www.ncbi.nlm.nih.gov/entrez/query.fcgi?cmd=search&db=pubmed&term=%28%28%22skin%20neoplasms%22%5BMH%5D%20OR%20%22dermatology%22%5BMH%5D%29%20OR%20sloan-kettering%20AND%20Halpern%20A%5BAU%5D%29)

Disclosures

Members of the MSK Community often work with pharmaceutical, device, biotechnology, and life sciences companies, and other organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community. These activities outside of MSK further our mission, provide productive collaborations, and promote the practical application of scientific discoveries.

MSK requires doctors, faculty members, and leaders to report ("disclose") the relationships and financial interests they have with external entities. As a commitment to transparency with our community, we make that information available to the public. Not all disclosed interests and relationships present conflicts of interest. MSK reviews all disclosed interests and relationships to assess whether a conflict of interest exists and whether formal COI management is needed.

Allan C. Halpern discloses the following relationships and financial interests:

- Canfield Scientific
Professional Services and Activities
- SKIP Derm, LLC
Equity; Intellectual Property Rights
- SpotDoc
Equity

If you're a patient at MSK and would like more information about your doctor's external relationships, please talk with your doctor.

The information published here is a complement to other publicly reported data and is for a specific annual disclosure period. There may be differences between information on this and other public sites as a result of different reporting periods and/or the various ways relationships and financial interests are categorized by organizations that publish such data.

This page and data include information for a specific MSK annual disclosure period (January 1, 2024 through disclosure submission in spring 2025). This data reflects interests that may or may not still exist. This data is updated annually.

Learn more about MSK's COI policies [here](#). For questions regarding MSK's COI-related policies and procedures, email MSK's Compliance Office at ecoi@mskcc.org.
