## Get to Know Me

I am a clinical cardiologist specializing in the comprehensive management of co-existing cardiovascular disease and cancer as well as the cardio-toxic side effects of chemotherapy treatment. Through close collaboration with the cancer treatment team, my goal is to ensure the best outcomes for patients with cancer who are at risk for or who have concurrent cardiovascular disease.

I work closely with the oncologists to monitor patient's cardiovascular health during treatment and provide long-term follow-up cardiac care for cancer survivors. I also provide cardiac evaluation for patients with cancer who are scheduled to undergo major surgery or to receive potentially cardio-toxic cancer treatment.

## What I Do at MSK

I'm a cardiologist, which is a doctor with special training in the cardiovascular system (heart and blood vessels).

- Associate Attending Physician

## Areas of Expertise

## Conditions I Treat

- Cardiotoxicity and cardiotoxic effects of cancer treatment
- Heart failure
- Hypertension
- Cardiac arrhythmias
- Atrial fibrillation
- Radiation-induced heart disease
- Late cardiac effects of cancer treatment
- Hyperlipidemia (high cholesterol)
- Coronary artery disease
- Cardiomyopathy
- Pericardial disease
- Autonomic dysfunction
- Cardiac amyloidosis
- Peripheral vascular disease

## **My Specialties**

- 3D transthoracic echocardiography
- Strain imaging echocardiography
- Transesophageal echocardiogram (TEE)
- Stress echocardiogram
- Direct current cardioversion
- Electrocardiogram (EKG)
- Holter/cardiac event monitoring
- Preoperative cardiovascular assessment
- CAR T-cell therapy
- Cardiovascular evaluation before bone marrow transplant

## **Education & Honors**

### **Education**

- MD, Harvard Medical School
- MS, Cornell University

## Residencies

- Hospital of the University of Pennsylvania

## Fellowships

- Mount Sinai Medical Center (New York)

## Board Certifications

- Cardiovascular Disease
- Echocardiography

## Insurance Information

Understanding your insurance options is an important part of managing your cancer care. We have relationships with many common healthcare providers and plans.

Don't see your carrier or plan? [We can help you understand your coverage](#) .

If you don't have health insurance or are worried that your care may not be fully covered, our [financial assistance](#) programs may be able to help.

If you have questions about insurance, call us at [646-497-9176](#) .

## Contact and Location

## Clinical Trials

- Clinical Trials Co-Investigated by Dr. Yu
- [A Phase 2 Study of Aerobic Training for People Receiving Chemotherapy for Breast Cancer](#)
- [A Study of Exercise Therapy to Improve Cardiovascular Health in Post-Menopausal Women after Treatment for Early-Stage Breast Cancer](#)
- [A Study to See if Heart Cells Can Be Generated from Blood or Skin Cells of Breast Cancer Patients](#)

## Find a Clinical Trial for You

Memorial Sloan Kettering's doctors and scientists are constantly developing new treatments for cancer. MSK is typically running hundreds of clinical trials at a given time.

You may be able to participate in a clinical trial even if you are new to MSK. Search our online directory to find trial information and see more about who can participate.

[Search clinical trials](https://www.mskcc.org/cancer-care/clinical-trials) (<https://www.mskcc.org/cancer-care/clinical-trials>)

## Research and Publications

### Publications on PubMed

Visit PubMed for a full listing of Dr. Yu's journal articles. Pubmed is an online index of research papers and other articles from the US National Library of Medicine and the National Institutes of Health.

## Disclosures

Members of the MSK Community often work with pharmaceutical, device, biotechnology, and life sciences companies, and other organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community. These activities outside of MSK further our mission, provide productive collaborations, and promote the practical application of scientific discoveries.

MSK requires doctors, faculty members, and leaders to report ("disclose") the relationships and

financial interests they have with external entities. As a commitment to transparency with our community, we make that information available to the public. Not all disclosed interests and relationships present conflicts of interest. MSK reviews all disclosed interests and relationships to assess whether a conflict of interest exists and whether formal COI management is needed.

Anthony F. Yu discloses the following relationships and financial interests:

- Avacta Life Sciences Limited

Professional Services and Activities

- Genentech

Professional Services and Activities

If you're a patient at MSK and would like more information about your doctor's external relationships, please talk with your doctor.

The information published here is a complement to other publicly reported data and is for a specific annual disclosure period. There may be differences between information on this and other public sites as a result of different reporting periods and/or the various ways relationships and financial interests are categorized by organizations that publish such data.

---

This page and data include information for a specific MSK annual disclosure period (January 1, 2024 through disclosure submission in spring 2025). This data reflects interests that may or may not still exist. This data is updated annually.

Learn more about MSK's COI policies [here](#) . For questions regarding MSK's COI-related policies and procedures, email MSK's Compliance Office at [ecoi@mskcc.org](mailto:ecoi@mskcc.org) .
