# About Me

## What I Do at MSK

- Associate Attending Surgeon

## Get To Know Me

I am a surgeon who cares for people with urologic cancers, such as [prostate cancer](#), [kidney tumors](#), and [bladder cancer](#). I have specific expertise in [minimally invasive procedures](#). These procedures have been shown to:

- Reduce the risk of complications
- Enable patients to recover sooner
- Help preserve their patients' quality of life

I have advanced training in robotic-assisted and laparoscopic surgery and have performed thousands of these minimally invasive procedures since 2005. I have more than two decades of experience using advanced robotic- assisted techniques to remove the prostate ([prostatectomy](#)) for men with prostate cancer. I perform more than 200 minimally invasive prostate surgeries each year.

In addition, I have developed image-guided surgical techniques to spare nerves that are important for erectile function. I also have advanced skills in magnetic resonance imaging (MRI)-guided procedures for the diagnosis and treatment of prostate cancer. I perform more than 250 MRI-guided prostate biopsies annually and lead research that aims to improve biopsy outcomes.

## Disclosures

Doctors and faculty members often work with pharmaceutical, device, biotechnology, and life sciences companies, and other organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community.

MSK requires doctors and faculty members to report (“disclose”) the relationships and financial interests they have with external entities. As a commitment to transparency with our community, we make that information available to the public.

Behfar Ehdaie discloses the following relationships and financial interests:

*No disclosures meeting criteria for time period*

If you're a patient at MSK and would like more information about your doctor's external relationships, please talk with your doctor.

The information published here is for a specific annual disclosure period. There may be differences between information on this and other public sites as a result of different reporting periods and/or the various ways relationships and financial interests are categorized by organizations that publish such data.

---

This page and data include information for a specific MSK annual disclosure period (January 1, 2022 through disclosure submission in spring 2023). This data reflects interests that may or may not still exist. This data is updated annually.

Learn more about MSK's COI policies [here](#). For questions regarding MSK's COI-related policies and procedures, email MSK's Compliance Office at [ecoi@mskcc.org](mailto:ecoi@mskcc.org).
