About Me

What I Do at MSK

- Attending Physician

Get To Know Me

I am a board-certified internist and nephrologist with special expertise in diagnosing and treating the kidney diseases associated with cancer and its treatments. Doctors with this type of expertise (sometimes called “nephro-oncologists”) provide care to patients who are experiencing:

- the deleterious effects of chemotherapy on the kidneys (nephrotoxicity)
- severely impaired renal function requiring dialysis, and who also need chemotherapy to treat their cancer
- renal diseases (nephropathies) associated with solid tumors and hematological malignancies
- any of the complex metabolic disturbances that cancer patients can develop that also affect the kidneys.

Disclosures

Doctors and faculty members often work with pharmaceutical, device, biotechnology, and life sciences companies, and other organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community.

MSK requires doctors and faculty members to report (“disclose”) the relationships and financial interests they have with external entities. As a commitment to transparency with our community, we make that information available to the public.

Carlos D. Flombaum discloses the following relationships and financial interests:

No disclosures meeting criteria for time period

If you’re a patient at MSK and would like more information about your doctor’s external relationships, please talk with your doctor.

The information published here is for a specific annual disclosure period. There may be differences between information on this and other public sites as a result of different reporting periods and/or the various ways relationships and financial interests are categorized by organizations that publish such data.

This page and data include information for a specific MSK annual disclosure period (January 1, 2022 through disclosure submission in spring 2023). This data reflects interests that may or may not still exist. This data is updated annually.
