# About Me

## What I Do at MSK

- Attending Dentist

## Get To Know Me

I am a dentist who is trained in dental oncology, a discipline devoted to the dental and oral care of cancer patients.

While I provide all phases of dental and oral care, I have a special interest and expertise in the dental and oral evaluation and treatment of children with cancer; patients with hematologic malignancies such as leukemia, lymphoma, and multiple myeloma; and patients with head and neck cancer.

The care that I provide includes dental evaluation (dental clearance) prior to bone-marrow or stem-cell transplant; periodic care during and following cancer treatment; evaluation and treatment of the oral side effects of cancer therapy, such as dry mouth, oral candidiasis (thrush), and mouth sores; tooth restoration, extraction, and root canal therapy; and emergency dental treatment.
