## Get to Know Me

I am a radiation oncologist who cares for people with [lung](#) , [head and neck](#) , and [gynecologic cancers](#) .

I specialize in [intensity-modulated radiation therapy \(IMRT\)](#) and [image-guided radiation therapy](#) . IMRT delivers radiation directly to cancer cells from different angles. With IMRT, we can give high doses of radiation to the cancer cells while limiting damage to the healthy tissue and organs that are nearby.

I am also an expert in [stereotactic body radiation therapy \(SBRT\)](#) , which is another very precise form of radiation therapy. We use SBRT to treat cancer using high doses of radiation in three to five rounds of treatment.

I treat more than 300 patients each year.

## Clinical Trials

### Find a Clinical Trial for You

Memorial Sloan Kettering's doctors and scientists are constantly developing new treatments for cancer. MSK is typically running hundreds of clinical trials at a given time.

You may be able to participate in a clinical trial even if you are new to MSK. Search our online directory to find trial information and see more about who can participate.

## Disclosures

Members of the MSK Community often work with pharmaceutical, device, biotechnology, and life sciences companies, and other organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community. These activities outside of MSK further our mission, provide productive collaborations, and promote the practical application of scientific discoveries.

MSK requires doctors, faculty members, and leaders to report ("disclose") the relationships and financial interests they

have with external entities. As a commitment to transparency with our community, we make that information available to the public. Not all disclosed interests and relationships present conflicts of interest. MSK reviews all disclosed interests and relationships to assess whether a conflict of interest exists and whether formal COI management is needed.

Daphna Y. Gelblum discloses the following relationships and financial interests:

- Doximity, Inc.  
Equity

If you're a patient at MSK and would like more information about your doctor's external relationships, please talk with your doctor.

The information published here is a complement to other publicly reported data and is for a specific annual disclosure period. There may be differences between information on this and other public sites as a result of different reporting periods and/or the various ways relationships and financial interests are categorized by organizations that publish such data.
