About Me

What I Do at MSK

- Ronald O. Perelman Chair in Gynecologic Surgery
- Deputy Chief, Gynecology Service
- Head, Ovarian Cancer Surgery, Department of Surgery

Get To Know Me

I have been an attending surgeon at Memorial Sloan Kettering Cancer Center for more than 25 years. I have devoted my career to caring for women with cancerous and noncancerous gynecologic diseases, including cervical cancer, uterine cancer, and ovarian/fallopian tube cancer.

I have served as Deputy Chief of the Gynecology Service since 2010 and Head of the Ovarian Cancer Surgery Section since 2014. In 2021, I partnered with colleagues in the Departments of Medicine and Nursing as well as the Clinical Genetics Service to start the Comprehensive Assessment and Treatment of Cancers with Hereditary predisposition (CATCH) program. As the Surgical Director of this program, it is my goal to ensure that patients and family members who are at an increased risk for developing inherited cancers can be enrolled in a cutting-edge program, staffed by expert medical professionals, who can help them navigate the maze of consultations, screening tests, and preventive measures that are needed once this type of diagnosis is made.

Clinical Trials

Find a Clinical Trial for You

Memorial Sloan Kettering's doctors and scientists are constantly developing new treatments for cancer. MSK is typically running hundreds of clinical trials at a given time.

You may be able to participate in a clinical trial even if you are new to MSK. Search our online directory to find trial information and see more about who can participate.

Disclosures

Doctors and faculty members often work with pharmaceutical, device, biotechnology, and life sciences companies, and other organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community.

MSK requires doctors and faculty members to report (“disclose”) the relationships and financial interests they have with external entities. As a commitment to transparency with our community, we make that information available to the public.

Dennis S. Chi discloses the following relationships and financial interests:

Apyx Medical Corporation

Equity

AstraZeneca

Professional Services and Activities

BioNTech

Equity

Biom'Up SA

Professional Services and Activities

McGraw-Hill Education

Intellectual Property Rights

Moderna, Inc.

Equity

Oncoinvent AS

Professional Services and Activities

Taylor & Francis Group

Intellectual Property Rights

Verthermia

Equity

Wolters Kluwer

Intellectual Property Rights

If you're a patient at MSK and would like more information about your doctor's external relationships, please talk with your doctor.

The information published here is for a specific annual disclosure period. There may be differences between information on this and other public sites as a result of different reporting periods and/or the various ways relationships and financial interests are categorized by organizations that publish such data.

This page and data include information for a specific MSK annual disclosure period (January 1, 2022 through disclosure submission in spring 2023). This data reflects interests that may or may not still exist. This data is updated annually.

Learn more about MSK's COI policies here. For questions regarding MSK's COI-related policies and procedures, email MSK's Compliance Office at ecoi@mskcc.org.
