Get to Know Me

I am a dermatologist who focuses on caring for people with [basal cell carcinoma](#) , [squamous cell carcinoma](#) , early-stage [melanoma](#) , and rare types of skin cancers. I have special training in [Mohs surgery, laser surgery, and other dermatologic procedures used to remove skin cancer](#) .

I chose the field of dermatologic and Mohs surgery because it allows me to build long-term relationships with the people I care for. I also find it very rewarding to be able to treat and often cure skin cancer.

Disclosures

Members of the MSK Community often work with pharmaceutical, device, biotechnology, and life sciences companies, and other organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community. These activities outside of MSK further our mission, provide productive collaborations, and promote the practical application of scientific discoveries.

MSK requires doctors, faculty members, and leaders to report ("disclose") the relationships and financial interests they have with external entities. As a commitment to transparency with our community, we make that information available to the public. Not all disclosed interests and relationships present conflicts of interest. MSK reviews all disclosed interests and relationships to assess whether a conflict of interest exists and whether formal COI management is needed.

Erica H. Lee discloses the following relationships and financial interests:

- LOréal S.A.
Professional Services and Activities
- UptoDate
Intellectual Property Rights

If you're a patient at MSK and would like more information about your doctor's external relationships, please talk with your doctor.

The information published here is a complement to other publicly reported data and is for a specific annual disclosure period. There may be differences between information on this and other public sites as a result of different reporting periods and/or the various ways relationships and financial interests are categorized by organizations that publish such data.

This page and data include information for a specific MSK annual disclosure period (January 1, 2024 through disclosure submission in spring 2025). This data reflects interests that may or may not still exist. This data is updated annually.
