# About Me

### What I Do at MSK

- Clinical Director, Adult Bone Marrow Transplantation Inpatient Unit
- Associate Vice Chair of Hospital Medicine Inpatient Operations, Department of Medicine

#### Get To Know Me

I am a board-certified hematologist and oncologist and work as a bone marrow and stem cell transplant physician on the Adult Bone Marrow Transplant Service. I am part of a multidisciplinary team that treats patients using stem cell transplantation to treat a variety of hematologic malignancies. My particular expertise is in the area of allogeneic transplantation — the use of stem cells or bone marrow derived from a donor other than the patient. Stem cells can come from different sources (related or unrelated donors, bone marrow, peripheral blood, or umbilical cord blood units) and be modified in different ways before transplantation. My current focus is risk stratification — determining which type of transplant is best for each patient who is able to undergo and benefit from an allogeneic transplant.

## Disclosures

Doctors and faculty members often work with pharmaceutical, device, biotechnology, and life sciences companies, and other organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community.

MSK requires doctors and faculty members to report ("disclose") the relationships and financial interests they have with external entities. As a commitment to transparency with our community, we make that information available to the public.

#### Esperanza B. Papadopoulos

Esperanza B. Papadopoulos discloses the following relationships and financial interests:

Biogen Idec Equity Exelixis Equity

Regulus Therapeutics Equity

If you're a patient at MSK and would like more information about your doctor's external relationships, please talk with your doctor.

The information published here is for a specific annual disclosure period. There may be differences between information on this and other public sites as a result of different reporting periods and/or the various ways relationships and financial interests are categorized by organizations that publish such data.

This page and data include information for a specific MSK annual disclosure period (January 1, 2022 through disclosure submission in spring 2023). This data reflects interests that may or may not still exist. This data is updated annually.

Learn more about MSK's COI policies <u>here</u>. For questions regarding MSK's COI-related policies and procedures, email MSK's Compliance Office at <u>ecoi@mskcc.org</u>.
