## Get to Know Me

I am a hematologist-oncologist who specializes in caring for people with [acute and chronic leukemias](#) , [myelodysplastic syndromes](#) , and [myeloproliferative neoplasms](#) . I am dedicated to providing my patients with the best care tailored to their unique situation. To do this, we work together to develop a personalized treatment plan that takes into account their needs as well as their family's.

I am also an active clinical researcher who develops new and innovative approaches to treating [acute myeloid leukemia \(AML\)](#) .

## What I Do at MSK

I'm a leukemia specialist, which is a doctor with special training in diagnosing and treating leukemia

(loo-KEE-mee-uh). This cancer starts in tissue that forms blood, such as bone marrow.

I'm an early drug development specialist, which is a scientist who tests new drugs to treat cancer. I have special training in research studies, also known as clinical trials.

## Disclosures

Members of the MSK Community often work with pharmaceutical, device, biotechnology, and life sciences companies, and other organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community. These activities outside of MSK further our mission, provide productive collaborations, and promote the practical application of scientific discoveries.

MSK requires doctors, faculty members, and leaders to report ("disclose") the relationships and financial interests they have with external entities. As a commitment to transparency with our community, we make that information available to the public. Not all disclosed interests and relationships present conflicts of interest. MSK reviews all disclosed interests and relationships to assess whether a conflict of interest exists and whether formal COI management is needed.
