About Me

What I Do at MSK

- Attending Radiologist

Get To Know Me

I am a board-certified radiologist with expertise in cross-sectional anatomic and molecular imaging, particularly of gynecologic and prostate cancers, and I continue to be involved in radiologic practice and research. My research focuses on the evidence-based use of imaging in cancer management, including detection, treatment selection, treatment planning, and treatment follow-up. I helped develop the use of MRI and CT for gynecologic cancers and the application of MRI and MR spectroscopy for prostate cancer. I have published over 380 peer-reviewed original research articles and more than 300 review articles, editorials, and book chapters, as well as 18 books.

Clinical Trials

Find a Clinical Trial for You

Memorial Sloan Kettering's doctors and scientists are constantly developing new treatments for cancer. MSK is typically running hundreds of clinical trials at a given time.

You may be able to participate in a clinical trial even if you are new to MSK. Search our online directory to find trial information and see more about who can participate.

Disclosures

Doctors and faculty members often work with pharmaceutical, device, biotechnology, and life sciences companies, and other organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community.

MSK requires doctors and faculty members to report ("disclose") the relationships and financial interests they have with external entities. As a commitment to transparency with our community, we make that information available to the public.

Hedvig Hricak discloses the following relationships and financial interests:

Ion Beam Applications

Fiduciary Role / Position

Paige.AI, Inc.

Fiduciary Role / Position

If you're a patient at MSK and would like more information about your doctor's external relationships, please talk with your doctor.

The information published here is for a specific annual disclosure period. There may be differences between information on this and other public sites as a result of different reporting periods and/or the various ways relationships and financial interests are categorized by organizations that publish such data.

This page and data include information for a specific MSK annual disclosure period (January 1, 2022 through disclosure submission in spring 2023). This data reflects interests that may or may not still exist. This data is updated annually.

Learn more about MSK's COI policies here. For questions regarding MSK's COI-related policies and procedures, email MSK's Compliance Office at ecoi@mskcc.org.
