About Me

What I Do at MSK

- Division Head, Pediatric Subspecialties

Get To Know Me

I am a pediatric critical care doctor on the MSK Kids team. I care for infants, children, and young adults in the Pediatric Intensive Care Unit (PICU). Some children need close monitoring in the PICU because of the overall state of their health. Others receive intensive therapies that require them to be watched carefully in the PICU during their treatment.

Our team in the PICU has the compassion, experience, and skill to take care of very ill young patients. This team includes pediatricians, nurse practitioners, and nurses who work closely with Memorial Sloan Kettering's pediatric surgeons, neurosurgeons, oncologists, and bone marrow transplant specialists. With pharmacists, respiratory care specialists, and nutrition specialists at MSK as well, together we ensure that our patients receive excellent care tailored to their needs.

Insurance Information

Understanding your insurance options is an important part of managing your cancer care. We have relationships with many common healthcare providers and plans.

Don't see your carrier or plan? [We can help you understand your coverage.](#)

If you don't have health insurance or are worried that your care may not be fully covered, our [financial assistance](#) programs may be able to help.

If you have questions about insurance, call us at [646-497-9176](tel:646-497-9176).

Make an Appointment

New Patients

Scheduling an appointment is easy. Click or call [800-525-2225](tel:800-525-2225)— we're available Monday through Friday, 8 a.m. to 6 p.m. (Eastern time)

Clinical Trials

Find a Clinical Trial for You

Memorial Sloan Kettering's doctors and scientists are constantly developing new treatments for cancer. MSK is typically running hundreds of clinical trials at a given time.

You may be able to participate in a clinical trial even if you are new to MSK. Search our online directory to find trial information and see more about who can participate.

Disclosures

Doctors and faculty members often work with pharmaceutical, device, biotechnology, and life sciences companies, and other organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community.

MSK requires doctors and faculty members to report ("disclose") the relationships and financial interests they have with external entities. As a commitment to transparency with our community, we make that information available to the public.

James S. Killinger discloses the following relationships and financial interests:

No disclosures meeting criteria for time period

If you're a patient at MSK and would like more information about your doctor's external relationships, please talk with your doctor.

The information published here is for a specific annual disclosure period. There may be differences between information on this and other public sites as a result of different reporting periods and/or the various ways relationships and financial interests are categorized by organizations that publish such data.

This page and data include information for a specific MSK annual disclosure period (January 1, 2022 through disclosure submission in spring 2023). This data reflects interests that may or may not still exist. This data is updated annually.

Learn more about MSK’s COI policies [here](#). For questions regarding MSK’s COI-related policies and procedures, email MSK’s Compliance Office at ecoi@mskcc.org.
