## Get to Know Me

I am a physician-scientist with experience in clinical radiology, nuclear medicine, and basic science. I trained in both Europe and the United States. I did a body imaging fellowship and nuclear medicine residency at MSK. In that time, I gained extensive experience in tumor imaging using MRI, CT, and PET/CT.

My main interests are body imaging, particularly lymph node imaging and prostate imaging, as well as [prostate cancer](#) biology.

## Disclosures

Members of the MSK Community often work with pharmaceutical, device, biotechnology, and life sciences companies, and other organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community. These activities outside of MSK further our mission, provide productive collaborations, and promote the practical application of scientific discoveries.

MSK requires doctors, faculty members, and leaders to report (“disclose”) the relationships and financial interests they have with external entities. As a commitment to transparency with our community, we make that information available to the public. Not all disclosed interests and relationships present conflicts of interest. MSK reviews all disclosed interests and relationships to assess whether a conflict of interest exists and whether formal COI management is needed.

Jan Grimm discloses the following relationships and financial interests:
