# About Me

## Get To Know Me

I am a physician-scientist with experience in clinical radiology, nuclear medicine, and basic science. I trained in both Europe and the United States. I did a body imaging fellowship and nuclear medicine residency at MSK. In that time, I gained extensive experience in tumor imaging using MRI, CT, and PET/CT.

My main interests are body imaging, particularly lymph node imaging and prostate imaging, as well as [prostate cancer](#) biology.

## Disclosures

Doctors and faculty members often work with pharmaceutical, device, biotechnology, and life sciences companies, and other organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community.

MSK requires doctors and faculty members to report ("disclose") the relationships and financial interests they have with external entities. As a commitment to transparency with our community, we make that information available to the public.

Jan Grimm discloses the following relationships and financial interests:

Jan Grimm

Gerson Lehrman Group  
Professional Services and Activities

Society of Nuclear Medicine and Molecular Imaging  
Professional Services and Activities

If you're a patient at MSK and would like more information about your doctor's external relationships, please talk with your doctor.

The information published here is for a specific annual disclosure period. There may be differences between information on this and other public sites as a result of different reporting periods and/or the various ways relationships and financial interests are categorized by organizations that publish such data.

---

This page and data include information for a specific MSK annual disclosure period (January 1, 2022 through disclosure submission in spring 2023). This data reflects interests that may or may not still exist. This data is updated annually.
