About Me

What I Do at MSK

- Attending Anesthesiologist

Get To Know Me

I am a board-certified anesthesiologist, and my major clinical focus is pain management. I specialize in performing interventional procedures and medically managing cancer pain at Memorial Sloan Kettering's facilities in Manhattan and Basking Ridge, New Jersey. I collaborate with colleagues in medical, surgical, and radiation oncology in Manhattan and Basking Ridge, ensuring that patients at both sites receive care from a strong multidisciplinary group. At the Basking Ridge facility I provide optimal pain management to patients who wish to stay near their homes, as part of our goal of providing cancer care equal to that available at Memorial Sloan Kettering in New York. I also provide general anesthesia services at the main campus.

Disclosures

Doctors and faculty members often work with pharmaceutical, device, biotechnology, and life sciences companies, and other organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community.

MSK requires doctors and faculty members to report ("disclose") the relationships and financial interests they have with external entities. As a commitment to transparency with our community, we make that information available to the public.

Kenneth H. Cubert discloses the following relationships and financial interests:

No disclosures meeting criteria for time period

If you're a patient at MSK and would like more information about your doctor's external relationships, please talk with your doctor.

The information published here is for a specific annual disclosure period. There may be differences between information on this and other public sites as a result of different reporting periods and/or the various ways relationships and financial interests are categorized by organizations that publish such data.

This page and data include information for a specific MSK annual disclosure period (January 1, 2022 through disclosure submission in spring 2023). This data reflects interests that may or may not still exist. This data is updated annually.
