## Get to Know Me

I am a physician on the MSK Kids team who specializes in cellular therapy as a member of the Pediatric Stem Cell Transplantation and Cellular Therapies Service. I treat children and young adults with blood cancers such as [leukemia](#) , disorders of the bone marrow that hamper the ability to make normal blood cells, and immune system problems that impair the body's ability to fight infection.

In addition to caring for patients, I am Pediatric Director of the Cellular Therapeutic Center at Memorial Sloan Kettering. In this capacity, my colleagues and I develop novel cellular treatments for children and young adults with leukemia and [lymphoma](#) that do not respond to standard therapies. Specifically, we used chimeric antigen receptor (CAR) T cells to recognize and kill cancer cells.

## What I Do at MSK

I'm a pediatric hematologist-oncologist, which is a doctor who treats cancers and blood diseases in children, adolescents, and young adults.

- Associate Attending Pediatrician

## Areas of Expertise

### Conditions I Treat

- Pediatric cancers
- Pediatric leukemias
- Pediatric lymphomas

### My Specialties

- Pediatric cancer care
- Pediatric bone marrow transplant
- CAR T-cell therapy
- Pediatric stem cell transplant
- Pediatric cellular therapy

## Education & Honors

### Education

- MD, Georgetown University

### Residencies

- Pediatrics - Tufts-New England Medical Center

### Fellowships

- Pediatric Hematology/Oncology - Memorial Sloan Kettering Cancer Center

## Board Certifications

- General Pediatrics
- Pediatric Hematology/Oncology

## Insurance Information

Understanding your insurance options is an important part of managing your cancer care. We have relationships with many common healthcare providers and plans.

Don't see your carrier or plan? [We can help you understand your coverage](#) .

If you don't have health insurance or are worried that your care may not be fully covered, our [financial assistance](#) programs may be able to help.

If you have questions about insurance, call us at [646-497-9176](#) .

## Make an Appointment

### New Patients

Scheduling an appointment is easy. Click or call [212-639-5836](#) — we're available 24 hours a day, 7 days a week

## Clinical Trials

- Clinical Trials Investigated by Dr. Curran
- [A Study of Targeted Fludarabine Dosing in Children and Young Adults With B-Cell Acute Lymphoblastic Leukemia Getting CAR T-Cell Therapy \(INFLUENCE STUDY\)](#)
- Clinical Trials Co-Investigated by Dr. Curran
- [A Phase 1 Study of CD371-Targeting CAR T Cell Therapy in People With Acute Myeloid Leukemia](#)
- [A Phase 1/2 Study of Afamitresgene Autoleucel SPEAR T Cell Therapy in Children and Young Adults With Solid Tumors](#)
- [A Phase I Study of UCART22 CAR T-Cell Therapy in Children and Young Adults with Recurrent or Persistent B-Cell Acute Lymphoblastic Leukemia](#)

### Find a Clinical Trial for You

Memorial Sloan Kettering's doctors and scientists are constantly developing new treatments for cancer. MSK is typically running hundreds of clinical trials at a given time.

You may be able to participate in a clinical trial even if you are new to MSK. Search our online directory to find trial information and see more about who can participate.

## Disclosures

Members of the MSK Community often work with pharmaceutical, device, biotechnology, and life sciences companies, and other organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community. These activities

outside of MSK further our mission, provide productive collaborations, and promote the practical application of scientific discoveries.

MSK requires doctors, faculty members, and leaders to report (“disclose”) the relationships and financial interests they have with external entities. As a commitment to transparency with our community, we make that information available to the public. Not all disclosed interests and relationships present conflicts of interest. MSK reviews all disclosed interests and relationships to assess whether a conflict of interest exists and whether formal COI management is needed.

Kevin J. Curran discloses the following relationships and financial interests:

- Gerson Lehrman Group  
Professional Services and Activities
- Momentum Acquisitions  
Professional Services and Activities
- PromiCell Therapeutics, Inc.  
Equity; Professional Services and Activities
- Turn Biotechnologies, Inc.  
Equity; Professional Services and Activities

If you’re a patient at MSK and would like more information about your doctor’s external relationships, please talk with your doctor.

The information published here is a complement to other publicly reported data and is for a specific annual disclosure period. There may be differences between information on this and other public sites as a result of different reporting periods and/or the various ways relationships and financial interests are categorized by organizations that publish such data.

---

This page and data include information for a specific MSK annual disclosure period (January 1, 2024 through disclosure submission in spring 2025). This data reflects interests that may or may not still exist. This data is updated annually.

Learn more about MSK’s COI policies [here](#) . For questions regarding MSK’s COI-related policies and procedures, email MSK’s Compliance Office at [ecoi@mskcc.org](mailto:ecoi@mskcc.org) .
