## About Me

## What I Do at MSK

- Associate Attending Pediatrician

## Get To Know Me

I am a physician on the MSK Kids team who specializes in cellular therapy as a member of the Pediatric Stem Cell Transplantation and Cellular Therapies Service. I treat children and young adults with blood cancers such as [leukemia](#), disorders of the bone marrow that hamper the ability to make normal blood cells, and immune system problems that impair the body's ability to fight infection.

In addition to caring for patients, I am Pediatric Director of the Cellular Therapeutic Center at Memorial Sloan Kettering. In this capacity, my colleagues and I develop novel cellular treatments for children and young adults with leukemia and [lymphoma](#) that do not respond to standard therapies. Specifically, we used chimeric antigen receptor (CAR) T cells to recognize and kill cancer cells.

### Find a Clinical Trial for You

Memorial Sloan Kettering's doctors and scientists are constantly developing new treatments for cancer. MSK is typically running hundreds of clinical trials at a given time.

You may be able to participate in a clinical trial even if you are new to MSK. Search our online directory to find trial information and see more about who can participate.

## Disclosures

Doctors and faculty members often work with pharmaceutical, device, biotechnology, and life sciences companies, and other organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community.

MSK requires doctors and faculty members to report ("disclose") the relationships and financial interests they have with external entities. As a commitment to transparency with our community, we make that information available to the public.

Kevin J. Curran discloses the following relationships and financial interests:

Atara Biotherapeutics

Professional Services and Activities

Canaccord Genuity Inc.  
Professional Services and Activities

Gerson Lehrman Group  
Professional Services and Activities

Guidepoint Global Advisors  
Professional Services and Activities

Momentum Acquisitions  
Professional Services and Activities

Novartis  
Professional Services and Activities

Turn Biotechnologies, Inc.  
Equity; Professional Services and Activities

If you're a patient at MSK and would like more information about your doctor's external relationships, please talk with your doctor.

The information published here is for a specific annual disclosure period. There may be differences between information on this and other public sites as a result of different reporting periods and/or the various ways relationships and financial interests are categorized by organizations that publish such data.

---

This page and data include information for a specific MSK annual disclosure period (January 1, 2022 through disclosure submission in spring 2023). This data reflects interests that may or may not still exist. This data is updated annually.

Learn more about MSK's COI policies [here](#). For questions regarding MSK's COI-related policies and procedures, email MSK's Compliance Office at [ecoi@mskcc.org](mailto:ecoi@mskcc.org).
