About Me

What I Do at MSK

- Attending Pediatrician

Get To Know Me

I am a pediatric oncologist at MSK Kids with a special interest in treating children, adolescents, and young adults with [sarcomas](#) of the bone and soft tissues. These are rare tumors — fewer than 2,000 cases are diagnosed in United States each year. I work with a team of oncologists, pediatric and orthopedic surgeons, and radiation therapists to offer unique expertise and treatment options to patients with both newly diagnosed sarcomas and those that came back after previous treatment.

Disclosures

Doctors and faculty members often work with pharmaceutical, device, biotechnology, and life sciences companies, and other

organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community.

MSK requires doctors and faculty members to report (“disclose”) the relationships and financial interests they have with external entities. As a commitment to transparency with our community, we make that information available to the public.

Leonard H. Wexler discloses the following relationships and financial interests:

Treeline Biosciences, Inc.
Professional Services and Activities

If you’re a patient at MSK and would like more information about your doctor’s external relationships, please talk with your doctor.

The information published here is for a specific annual disclosure period. There may be differences between information on this and other public sites as a result of different reporting periods and/or the various ways relationships and financial interests are categorized by organizations that publish such data.

This page and data include information for a specific MSK annual disclosure period (January 1, 2022 through disclosure submission in spring 2023). This data reflects interests that may or may not still exist. This data is updated annually.
