# About Me

## What I Do at MSK

- Co-Director, MSK Mesothelioma Program

## Get To Know Me

I am a board-certified medical oncologist who specializes in caring for people with thoracic cancers and I am Co-Director of MSK's Mesothelioma Program. I provide personalized care to my patients throughout their treatment. Care plans are based not only on the type of cancer and its genomics but also on the priorities of each and every patient and family.

I work closely with my colleagues from other disciplines such as thoracic surgery, radiation oncology, pulmonology, pathology, radiology, and interventional radiology to determine the optimal plan and whether there is an appropriate [clinical trial](#).

## My Role at MSK

A thoracic oncologist is a cancer doctor with special training in thoracic (thor-A-sik) cancers. These are cancers that have to do with the chest, including lung, tracheal (windpipe), and thymic (thymus) cancers.

An early drug development specialist tests new drugs to treat cancer. They have special training in research studies, known as clinical trials.

## Disclosures

Doctors and faculty members often work with pharmaceutical, device, biotechnology, and life sciences companies, and other organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community.

MSK requires doctors and faculty members to report ("disclose") the relationships and financial interests they have with external entities. As a commitment to transparency with our community, we make that information available to the public.

Marjorie G. Zauderer discloses the following relationships and financial interests:
