About Me

What I Do at MSK

- Research Director, Division of Gastrointestinal Oncology

Get To Know Me

I am a medical oncologist who cares for people with gastrointestinal (GI) cancers, including:

- Anal cancer
- Appendiceal cancer
- Colon cancer
- Rectal cancer
- Small bowel cancer

When patients first meet with me, they are often worried about their diagnosis. They want to know more about their treatment options and their ability to recover. My goal is to explain what they want to know in a way that is easy to understand. I work with them to create a treatment plan that takes into account their needs and wants. I hope they feel confident about the next steps in their care and know that they are in good hands at Memorial Sloan Kettering Cancer Center.

Disclosures

Doctors and faculty members often work with pharmaceutical, device, biotechnology, and life sciences companies, and other organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community.

MSK requires doctors and faculty members to report ("disclose") the relationships and financial interests they have with

external entities. As a commitment to transparency with our community, we make that information available to the public.

Neil H. Segal discloses the following relationships and financial interests:
