Get to Know Me

I am a pulmonologist with a special interest in treating lung conditions arising from cancer or its treatment. As one of the few pulmonologists with formal training in interventional pulmonology, I am able to utilize a full spectrum of advanced minimally invasive techniques in making the diagnosis of enlarged lymph nodes in the chest or small lung nodules, as well as to provide therapy for complications from cancer such as central airway obstruction or pleural effusion (fluid accumulation around the lung).

Colleagues

Doctors at Memorial Sloan Kettering work as teams, with specialists from all different areas. This allows us to consider all your needs together, and to give you the best possible care.

[See all Pulmonary Service doctors](https://www.mskcc.org/doctor#f:Departments=[Medicine,Division%20of%20Subspecialty%20Medicine,Pulmonary%20Service]) ([https://www.mskcc.org/doctor#f:Departments=\[Medicine,Division of Subspecialty Medicine,Pulmonary Service\]](https://www.mskcc.org/doctor#f:Departments=[Medicine,Division%20of%20Subspecialty%20Medicine,Pulmonary%20Service]))

Clinical Trials

Find a Clinical Trial for You

Memorial Sloan Kettering's doctors and scientists are constantly developing new treatments for cancer. MSK is typically running hundreds of clinical trials at a given time.

You may be able to participate in a clinical trial even if you are new to MSK. Search our online directory to find trial information and see more about who can participate.

[Search clinical trials](https://www.mskcc.org/cancer-care/clinical-trials) (<https://www.mskcc.org/cancer-care/clinical-trials>)

Disclosures

Members of the MSK Community often work with pharmaceutical, device, biotechnology, and life sciences companies, and other organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community. These activities outside of MSK further our mission, provide productive collaborations, and promote the practical application of scientific discoveries.

MSK requires doctors, faculty members, and leaders to report (“disclose”) the relationships and financial interests they have with external entities. As a commitment to transparency with our community, we make that information available to the public. Not all disclosed interests and relationships present conflicts of interest. MSK reviews all disclosed interests and relationships to assess whether a conflict of interest exists and whether formal COI management is needed.

Robert P. Lee discloses the following relationships and financial interests:

No disclosures meeting criteria for time period

If you're a patient at MSK and would like more information about your doctor's external relationships, please talk with your doctor.

The information published here is a complement to other publicly reported data and is for a specific annual disclosure period. There may be differences between information on this and other public sites as a result of different reporting periods and/or the various ways relationships and financial interests are categorized by organizations that publish such data.

This page and data include information for a specific MSK annual disclosure period (January 1, 2024 through disclosure submission in spring 2025). This data reflects interests that may or may not still exist. This data is updated annually.

Learn more about MSK's COI policies [here](#) . For questions regarding MSK's COI-related policies and procedures, email MSK's Compliance Office at ecoi@mskcc.org .
