# About Me

## What I Do at MSK

- Director, 3T Neuroradiology Imaging

## Get To Know Me

I am a neuroradiologist with expertise in the imaging of the brain, neck, and spine. My interests lie in the advanced imaging of brain tumors using diffusion tensor, perfusion, spectroscopic and functional MRI. I work closely with the neurosurgeons, neurologists, and radiation oncologists at Memorial Sloan Kettering to bring the most advanced standard and experimental treatments to our patients.

## My Role at MSK

A neuroradiologist (NOOR-oh-RAY-dee-AH-loh-jist) is a doctor with special training in images of the nervous system (brain, head, neck, and spine).

## Disclosures

Doctors and faculty members often work with pharmaceutical, device, biotechnology, and life sciences companies, and other organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community.

MSK requires doctors and faculty members to report ("disclose") the relationships and financial interests they have with external entities. As a commitment to transparency with our community, we make that information available to the public.

Robert J. Young discloses the following relationships and financial interests:

Agios Pharmaceuticals

Equity

ICON Clinical Research

Professional Services and Activities (Uncompensated)

Olea Medical

Professional Services and Activities

fMRI Consultants, LLC

If you're a patient at MSK and would like more information about your doctor's external relationships, please talk with your doctor.

The information published here is for a specific annual disclosure period. There may be differences between information on this and other public sites as a result of different reporting periods and/or the various ways relationships and financial interests are categorized by organizations that publish such data.
