About Me

What I Do at MSK

- Research Director, Gynecologic Medical Oncology Service
- Clinical Director, Solid Tumor, Cellular Therapy Service
- Associate Attending Physician

Get To Know Me

I am a medical oncologist with a primary focus on the medical treatment of patients with gynecologic cancers. I work very closely with a team of surgeons, oncologists, and radiation therapists to determine and provide the best treatment for each patient with these diseases.

My research initiatives include improving the treatment options for women with recurrent ovarian cancer and uterine sarcomas.

My Role at MSK

A gynecologic (GY-neh-kuh-LAH-jik) oncologist is a cancer doctor with special training in the gynecologic system. This includes cervical, fallopian tube, ovarian, uterine, vaginal, and vulvar cancers.

A cellular therapy specialist is a doctor with special training in using cell therapies to treat health conditions such as cancer. Therapies can include chimeric antigen receptor (CAR) T cell therapy.

Areas of Expertise

My Specialties

Medical Treatment of Ovarian, Endometrial, and Cervical Cancers

Education & Honors

Education

MD, National University of Ireland, Galway (Ireland)

Residencies

Mater Misericordiae University Hospital (Dublin, Ireland)

Disclosures

Doctors and faculty members often work with pharmaceutical, device, biotechnology, and life sciences companies, and other organizations outside of MSK, to find safe and effective cancer treatments, to improve patient care, and to educate the health care community.

MSK requires doctors and faculty members to report (“disclose”) the relationships and financial interests they have with external entities. As a commitment to transparency with our community, we make that information available to the public.

Roisin E. O'Cearbhaill discloses the following relationships and financial interests:
